

1800

YEARS OF

FINE WRITING INSTRUMENTS

PASSION

*The glowing "Fire" is part of the elegant limited edition series "Achievements of Civilization". We of course burn with passion for high-quality writing instruments.*

# Pelikan Passion

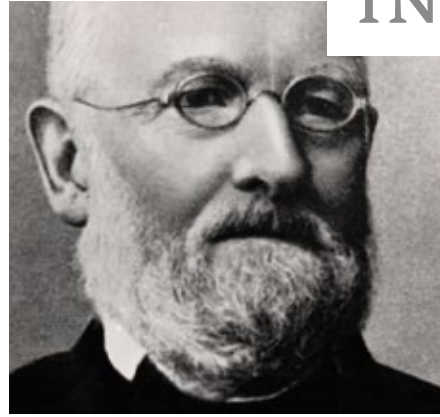

**OUR ANNIVERSARY YEAR BRINGS A VERY SPECIAL ATTITUDE WITH IT:** Our 180 years of passion. Yet there is a lot more to it than the number of years in which Pelikan wrote history.

For us, passion is a way of life. It is what drives us to become a little bit better with every day, while taking plenty of pleasure in trying new things and maintaining the ones that are tried and true. It is with this ambition that we begin the next era of Pelikan, and it is also reflected in our high-quality range: We bring passion to your handwriting.

*Jens Meyer*

Jens Meyer, Global Marketing Manager, Fine Writing

## INVENTIVESpirit

The chemist Carl Hornemann (1811 – 1896) founded his paint and ink factory near Hanover as far back as 1832. However, it is the date on which his first price list was published, April 28, 1838, that is considered the official founding date. So began Mr. Hornemann's business and the story of 180 years of passion.

# 1838

## GLOBALExplorer

# 1903

Pelikan takes the world by storm. A branch opens in Paris in 1903, with a distribution warehouse following in Munich in 1909 before the brand finally makes its move across the Atlantic in 1911: To New York. A postcard from 1913 shows a sales representative advertising Pelikan office items and ink in South America.

## PREMIERE 1929

Pelikan presented the first fountain pen with the patented piston filling system in 1929, revolutionizing the market with an even flow of ink, no blotting, and a larger and more manageable supply of ink. The famous, classic Souverän is considered worldwide to be a symbol of the Pelikan brand.

pre-1937

1937

from 2003

In 1871, the production manager at the time, Günther Wagner, took over the company from Carl Hornemann. Wagner had the "Pelikan" registered as a company trademark – marking the birth of one of the oldest brands in Germany. The pelican from his family coat of arms became the company's emblem and has adorned its logo ever since.

## OF PASSION

# 2016

## Dazzling RADIANCE

When US President Barack Obama visited Hanover, a state capital in Germany, to open that city's trade fair in 2016, he signed the city's Golden Book for honored guests. His autograph was made using the prestigious gift given to him: A Souverän Roller R800 in black/blue. Made specially for left-handed writers and featuring a personal dedication from our engraving specialists. Images of this event traveled the entire world.

*I am pleased to participate in this outstanding event, representing the strong bonds between American and German businesses and our people.*

# 180 YEARS

# 1926

## ARTaficionados

In the 1920s and 1930s, famous artists came up with ingenious ideas for the Pelikan brand after expending lots of effort exercising their typographical skills. These artists included Kurt Schwitters, El Lissitzky, Wilhelm Wagenfeld, and Julius Klinger.

# The Pelikan Quality Promise

## WE MAKE QUALITY AN EXPERIENCE

Quality is the product of craftsmanship. It is the result of more than a century's expertise. Even then, we rely on much more than just experience. The things that have been tried and tested over decades still need to inspire people both today and tomorrow. In order to meet the most sophisticated of demands at any time, we are consistently working to increase our prowess with the greatest passion. We show how you can refine ideas and develop visions. This is what Pelikan quality is all about, and how we have worked for 180 years – and this philosophy continues to guide us every day. Our promise to you.

## OUR SERVICES AT A GLANCE

- Unlimited warranty on limited edition pens\*
- Three-year warranty on Premium and Elegance collections\*
- Spare part, repair, and engraving services

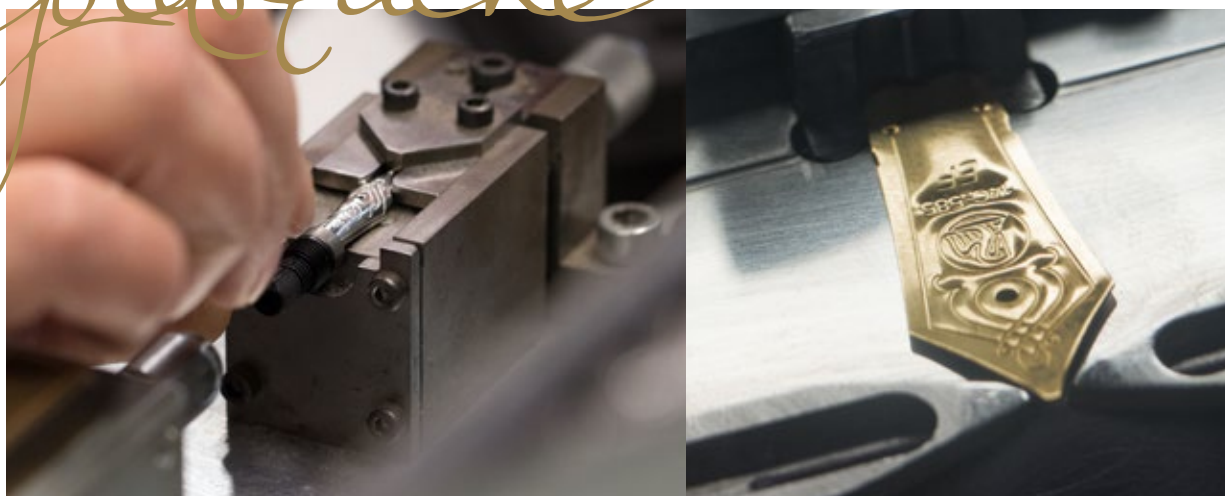

\* You can find more information about this in the warranty booklet for your writing instrument or on our Web site at [www.pelikan-passion.com/service](http://www.pelikan-passion.com/service)

*The perfect balance of advanced technical expertise and love of stylish design. Our Souverän is a classic as well as our brand ambassador worldwide.*

*Goldstücke*

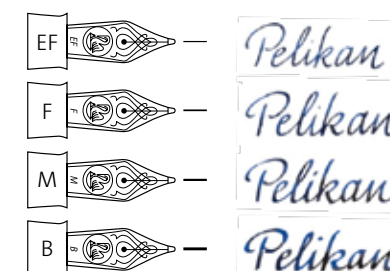

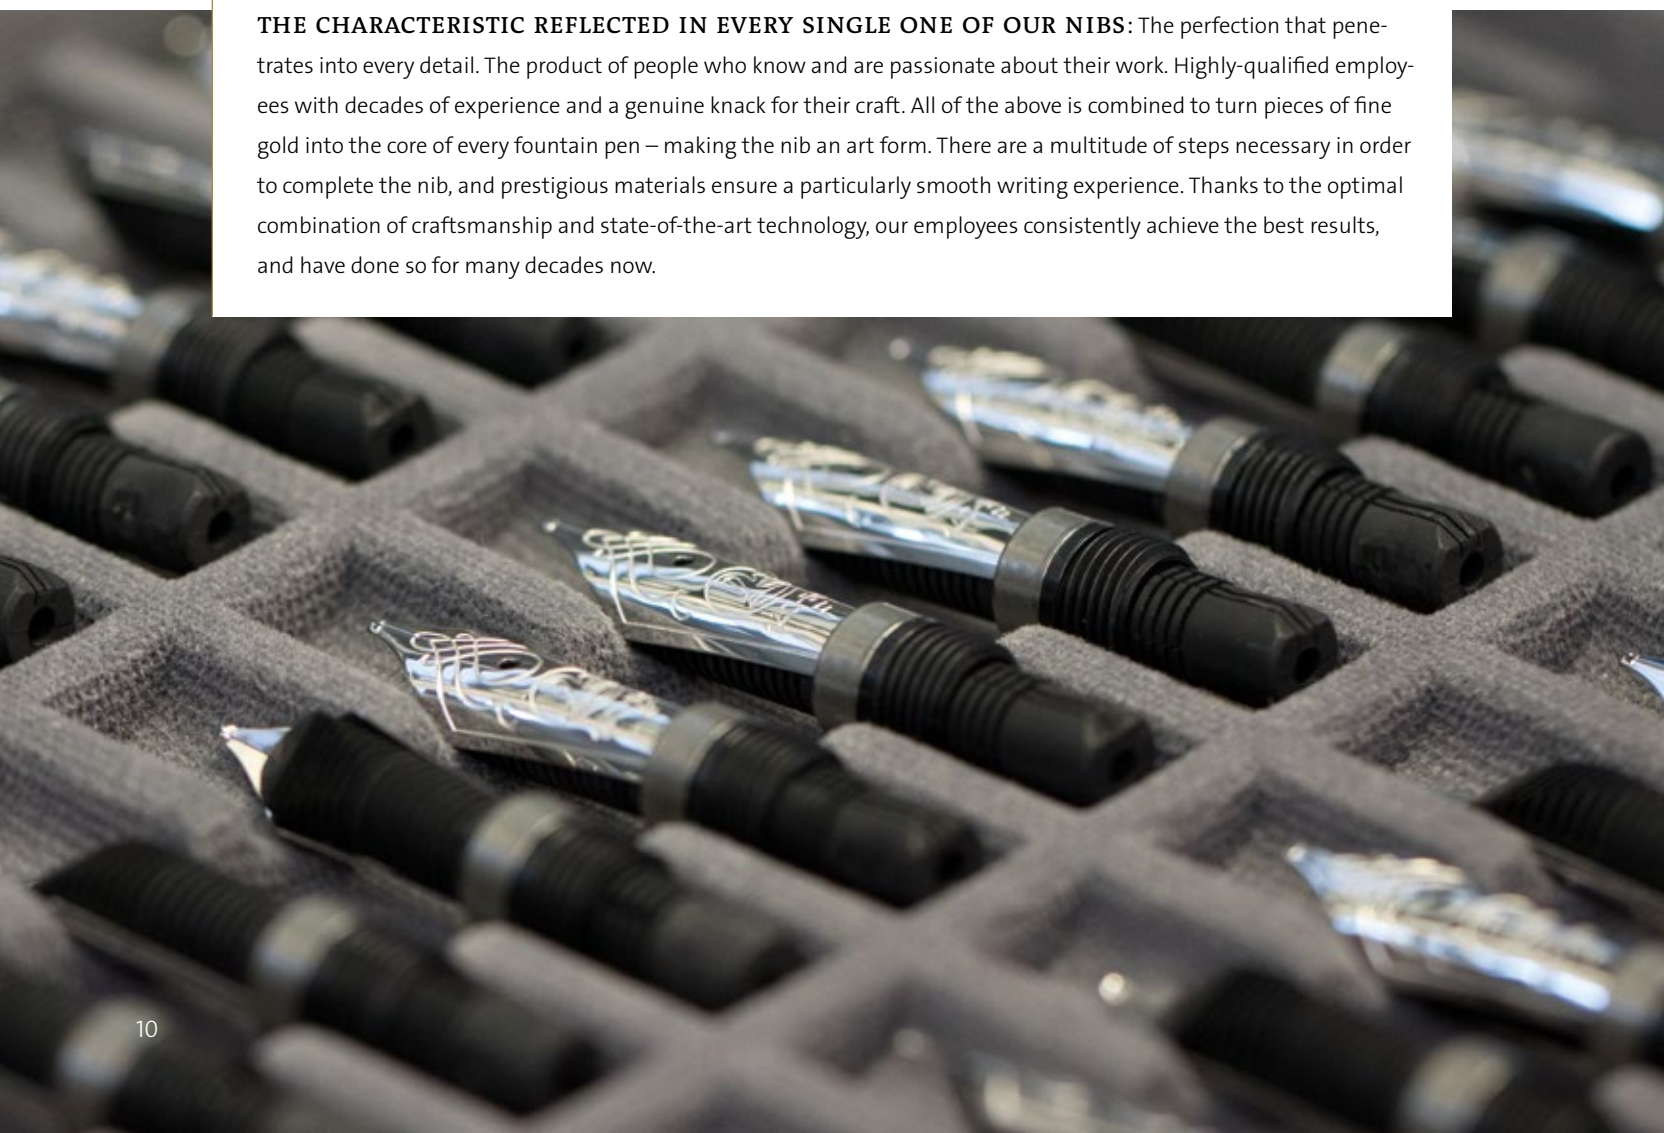

*The nib forms the core of every fountain pen.*

## »FINEST GOLDSTÜCKE with strong character«

**THE CHARACTERISTIC REFLECTED IN EVERY SINGLE ONE OF OUR NIBS:** The perfection that penetrates into every detail. The product of people who know and are passionate about their work. Highly-qualified employees with decades of experience and a genuine knack for their craft. All of the above is combined to turn pieces of fine gold into the core of every fountain pen – making the nib an art form. There are a multitude of steps necessary in order to complete the nib, and prestigious materials ensure a particularly smooth writing experience. Thanks to the optimal combination of craftsmanship and state-of-the-art technology, our employees consistently achieve the best results, and have done so for many decades now.

**CRAFTSMANSHIP IS AN ART IN ITSELF.** Depending on the model, gold nibs are made from 14 or 18-karat gold and are occasionally also rhodium-plated in order to gain a prestigious, silver appearance. The ornamentation on the nib is typical of every model and, in the case of limited-edition pens, is tailored to the theme of the respective pen. Extreme attention to detail in every stage of the production process is of particular importance to us. For instance, every nib is inscribed by hand once it is complete. A certain special touch is required for this, a touch that cannot be replaced by a machine.

In order for this core to continue working relentlessly, that is, so that the ink continues to flow instead of drying out during longer pauses in writing, all Pelikan fountain pens possess an insert on the inside of their cap so as to ensure an airtight seal. An ink feeder developed over the course of decades helps make sure that ink flows flawlessly as it should. It is located beneath the nib and uses capillary action. It is crucial that the width of the individual channels on the feeder is precise and accurate.

*Fine nibs EF and F: Ideal for short notes and people who have precise handwriting. Medium and broad nibs M and B: For occasional writers, signatures, and spirited handwriting.*

## PERSONAL NIB MADE in our factory

**EVERY PERSON WRITES DIFFERENTLY. EVERY NIB TOO.**

All Pelikan nibs share one thing in common: The pleasant feeling when you write with them. Your unmistakable, individual handwriting is an additional aspect that plays a role in the "Make a Wish Nib", and it is exactly this that our nib specialists pay heed to when carefully making it. During the consultation and your writing of a sample passage of text, they consider the following details: The speed and frequency with which you write, how much pressure you exert when writing, the angle at which you hold the nib, the hand with which you write, the paper used, and the desired flow of ink. A nib could hardly be more individual. It emphasizes an individual's handwriting.

# Make a Wish NIB

*"Its personality is born during manufacturing."*

### UTMOST PRECISION AND INDIVIDUALITY: THE PERFECT MIX.

Once a month, our factory in Vöhrum, a small town in Germany, opens its gates to the public. A popular date for all of our customers with a passion for writing, for beginners, and for collectors of high-quality writing instruments who want to have a 'Make a Wish Nib' made for them. The extremely cheerful atmosphere is appreciated greatly by all guests. "The level of skill that the specialists have when it comes to nibs is awe-inspiring. Even the noise made by the nib when writing is factored in when they make the personal nibs," reports one highly impressed customer. Detlev Köhn, who looks after our division for engineering fine writing instruments, receives high praise for this individual service offered by Pelikan.

*"Handwriting and penmanship are my passions. With my custom nib, it feels even more spectacular."*

### OUR NIB SPECIALISTS WILL FULFILL YOUR WISHES:

- The production of each nib reflects the desired area of usage and personal writing traits.
- There are various nib sizes on offer.
- Only two-tone, gold Souverän nibs are cut as part of this campaign.

We offer this service once per month and, if desired, with a tour of our factory included.

# Edelstein

## »INK OF THE YEAR«

**ANNUAL HIGHLIGHT.**

If the ink is fine, isn't everything fine? It's somewhat more complicated than that. Our Edelstein ink is the jewel of all inks. New design, a unique formula, the latest color accents, and a writing experience as smooth as silk. An exceptional highlight: Every year we present a new Edelstein ink color limited to just that calendar year – our Ink of the Year. The collection is available for a limited time only, yet the demand for it is endless.

\* Limited edition. Edition sold out at Pelikan.

\*\* Available from 03/2018

\*\*\* Limited edition

Perfect for travelling as well: metal case with 6 ink cartridges. Seven colors of Edelstein Ink can be chosen.

*"Ink of the Year is an exceptional world of experience. We reach a large community and find it fantastic when an idea takes off in a manner such as this."*

**BY PELIKAN FANS FOR PELIKAN FANS.**

The origin of the Edelstein Ink of the Year has elicited large amounts of colorful passion all around the world: In 2016, true Pelikan fans voted for the color for 2018 in an online campaign on Facebook. They were given the ability to mix their own color online, give it their own, jewel-based name, and upload their ink creation to the public gallery for voting. A jury consisting of five Pelikan company representatives and five Pelikan fans from across the world selected the winner from the 15 most popular colors. Our Ink of the Year 2018 carries the melodious name "Olivine" and will be available from March 2018. We are extremely grateful to our fans who are bound to impress very many lovers of writing with their choice.

-  Olivine (olive green) Ink of the Year 2018
-  Smoky Quartz (dark brown) Ink of the Year 2017
-  Aquamarine (turquoise) Ink of the Year 2016
-  Amethyst (eggplant) Ink of the Year 2015
-  Garnet (dark red) Ink of the Year 2014
-  Amber (yellow) Ink of the Year 2013
-  Turmaline (plum) Ink of the Year 2012

# THE GUARDIAN of the TintenTurm

Pelikan returned to its roots and opened the Tinten-Turm ("Ink Tower") at the company's historical headquarters in March 2017. In it, you will be able to find the Pelikan Shop, featuring many different items from all of the company's ranges. The archive is located there too. "I work here once a week to instill much-needed order amongst the chaos," says Mr. Dittmer with a grin on his face. The display space combines history with the modern times: Historical products show the company's progress over time, with the art of today being reflected in small events and readings in the historic hall. Altogether, there is around 700 m<sup>2</sup> of space for the company to celebrate some of its long heritage.

**JÜRGEN DITTMER, AGED 88, IS SURELY ONE OF PELIKAN'S ELDEST EMPLOYEES. IN A VISIT TO THE HISTORIC TINTENTURM, HE EXPLAINS TO US HIS WORK IN THE ARCHIVES AND PROPHESES THE COMPANY'S JOURNEY FROM HERE.**

**PELIKAN HAS BEEN PASSIONATELY PURSUING ITS WORK FOR 180 YEARS AND YOU HAVE BEEN THERE FOR 70 OF THEM. WHAT IS YOUR PASSION?** First of all, I have to say that I'm not much of a passionate person. I'm a stoic Hanoverian, and passionate about that. What I do find important, however, is that you like doing something and that you try to do it well.

**TODAY YOU WORK AS AN ARCHIVIST IN THE TINTENTURM. WHAT TREASURES DO YOU GUARD HERE?** What is a treasure? Ali Baba and the Forty Thieves had a treasure. He said "Open Sesame" and found a trove of gold and silver. We of course don't have anything of the sort. What we do count as a treasure though is a document dated April 28, 1838, our first price list, considered the date Pelikan was founded. The 1878 registration of the Pelikan logo as a trademark, as well as many historical posters and negatives.

*"I know a lot on account of my experience, but I'm not Wikipedia."*

**PELIKAN PRODUCES SOPHISTICATED, HIGH-QUALITY WRITING INSTRUMENTS. WHICH ONE IS YOUR FAVORITE?** The "Maki-e" pens come in beautiful colors. Their radiance is similar to that of the windows here in this historic room. I quite like the "Pyramids of Giza" fountain pen because there is lots to interpret. It is extremely nicely designed.

**WHAT ROLE DOES INK PLAY IN THIS DIGITAL ERA?** It plays a very important role, of course, especially with regard to inkjet printers. Pelikan has always tried to develop its original products in keeping with the times and will also continue to do so.

**WHAT DOES DIGITIZATION MEAN FOR HIGH-QUALITY WRITING INSTRUMENTS IN PARTICULAR?** The clientele for a good fountain pen for special occasions will always be a small one, though the feeling of a nib on paper can never be replaced. The desire to write on paper with ink will also exist in the future.

**WHERE WILL PELIKAN BE WHEN IT CELEBRATES ITS 200TH ANNIVERSARY?** Today children learn to write with a fountain pen. In 20 years, they may potentially come to school with a tablet and write with the tip of a stylus. We have to keep with the times and help develop something for this. One of our Griffix pens already features a stylus-like tip.

*"The feeling of a nib on paper can never be replaced."*

**YOU ARE OFTEN CALLED THE "WALKING PELIKAN ENCYCLOPEDIA" ... I know a lot about old things, but I'm not Wikipedia or the Encyclopaedia Britannica. My knowledge is the result of my first year on the job at Pelikan. I spent that year focusing practically only on product knowledge. As a result, I know quite a lot about our products, though that doesn't mean that there aren't also specialists who know much more about individual products.**

An international highlight:

## PELIKAN hub 2018

A passion that connects. Since 2014, Pelikan has initiated coordinated annual, simultaneous "Pelikan Hubs" across the world. What began as a trial project has quickly established itself in the hearts and minds of the people taking part. Last year, 3,600 collectors and fans met to share their knowledge and passion for Pelikan fountain pens. The term "hub" was chosen so as to represent a focal point where lovers of the Pelikan brand meet, exchange, and network beyond national borders. The events are held locally by fans, for fans, and continue to increase in popularity every year.

## PELIKAN The Brand

Our book on the history of the Pelikan brand features rich, graphical content and contains many large-sized facsimiles of Pelikan posters and advertising banners. It shows the growth of the Pelikan brand up to today and bears the subtitle "How the baby bird got into the nest, and how many when.". ISBN 978-3-923976-91-1

You will find the world of prestigious writing instruments exclusively at:

# WWW.PELIKAN-PASSION.COM

*In the beginning there was fire – and humans took advantage of it. With “Fire”, we are paying tribute to this amazing ability. A golden flame erupting out of the glowing red barrel and the gold nib ...*

# Limited Editions

## RARE BEAUTY.

We burn with passion for precision. For extraordinary richness of detail. For exclusive, unique pieces. This passion is reflected specially in everything we do with limited edition pens – design concepts are translated into fountain pens with a love of detail. Like the “Seven Wonders of the World”, for example, which inspire collectors all around the world. The edition number on the grip of every pen attests to the uniqueness of the limited, one-off edition. Rare beauty that arouses great desire.

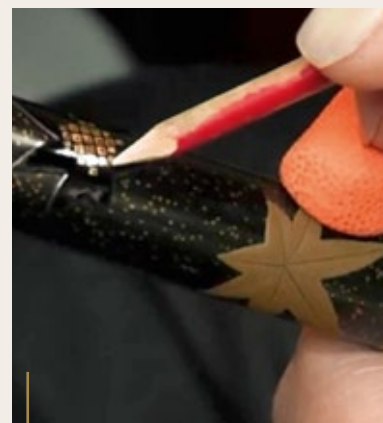

## SPRINKLED PICTURES RICH IN TRADITION.

Maki-e is a traditional Japanese craft passed down from generation to generation. When translated, the name of the technique means “sprinkled picture”, a meaning derived from the fine gold and silver dust and, occasionally, also the dust of shaved precious stones sprinkled across the fountain pen. Mastering this intricate art form requires many years of intensive training as well as a high degree of skill.

All Pelikan Maki-e fountain pens are handmade, unique pieces created to last. By using specially prepared Urushi lacquer acquired from the sap of the East Asian lacquer tree and finely ground precious metals, intricate motifs are created in an extremely laborious, time-consuming process. The coveted Maki-e unique collection is pure luxury.

On our website, you can watch Japanese artist Mr. Mushu Yamazaki carry out his fascinating work. “The art of creating a Maki-e fountain pen.”

The number of steps required to produce these exceptional motifs is very high. The ginkgo leaf is lovingly decorated with gold plating called “kirigane”.

### LIFE-LONG QUALITY

The features of the Maki-e materials are unique. Despite its solid consistency, the set lacquer maintains a high level of elasticity which permanently protects it against the development of cracks. The richness of detail will continue to amaze even after many years. All Pelikan Maki-e fountain pens are handmade, unique pieces created to last.

## PRESTIGIOUS PERFECTION.

The search for the perfect symbiosis of classic elegance and sophisticated quality will lead you directly to our Premium collection. Fine nibs made of 14 or 18-karat gold crown each fountain pen. Gold and silver ornamentation ensure the unique Pelikan design is completely perfect. In these pens you can witness the combination of expertise and craftsmanship in one fascinatingly smooth writing experience – prestige for highly varied demands and preferences.

*Elegant, striped appearance; sophisticated technology, a coveted piece. Our Souverän Classic in black/blue is a favorite in any collection.*

# TOLEDO<sup>®</sup> AN ARTWORK in Spanish style

PREMIUM

Pelikan 

The art of Damascus patterns is thousands of years old. It involves an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers. It was perfected there over the course of centuries, especially in the city of Toledo.

Pelikan commenced using this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades in an almost unchanged manner. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany. As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

*Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.*

# SOUVERÄN®

## A WORLD-FAMOUS CLASSIC.

1950 was the year of birth of our Model 400. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and the company's flagship product. We are extremely proud of our stylish creation having aroused unconditional desire for decades now.

In the 1980s, the series was given the name "Souverän", meaning sovereign in German. However, people often refer to it by its colloquial name "Stresemann" after the striped suits worn by the German Foreign Minister of the same name in the 1920s. This name continues to write history today, and will do so in the future too. In a manner befitting a sovereign. Today, this fountain pen exists in many variations and, despite the continual refinements of the design and technology, its fundamental mechanics remain the same.

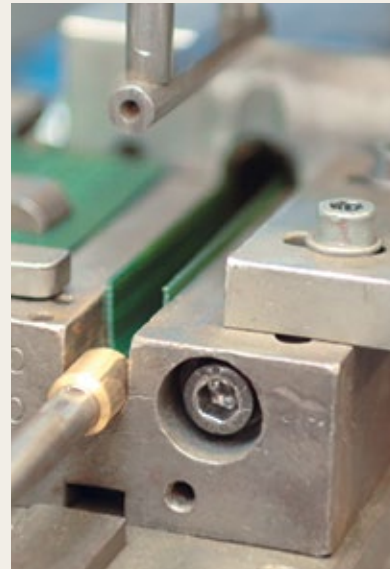

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

## MADE TO MEASURE BY THE MASTERS.

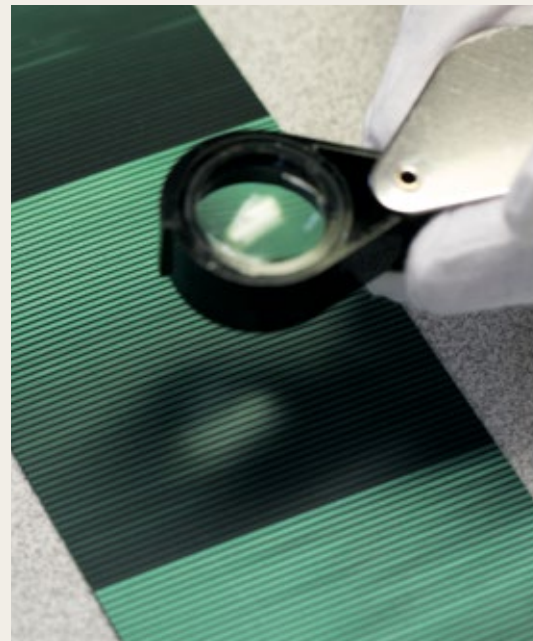

The production of the Souverän sleeve is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant sheen.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

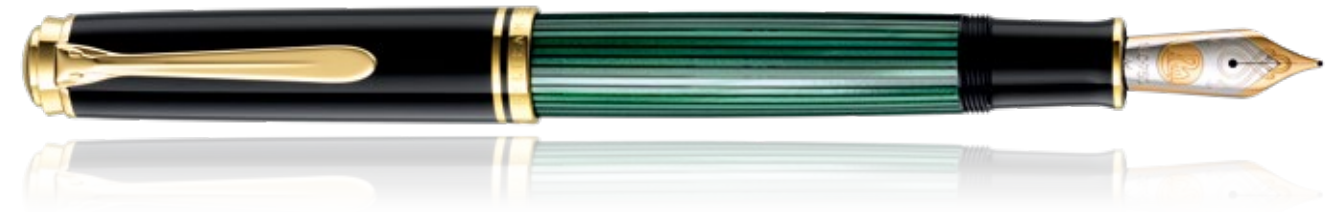

### HAND-SELECTED, UNIQUE PIECES:

The design of the Souverän is unique, and every fine, connected pinstripe on the material possesses the same visual quality. From Model 300 through to 1000, the surfaces are diamond-cut, giving them additional sheen. Our black models are made of high-grade resin, considered the "platinum" of all plastic materials, and are self-polishing. They are characterized by an extremely rich sheen and their solid, durable surfaces.

# SOUVERÄN® 400

Tortoiseshell-White

PREMIUM

Pelikan 

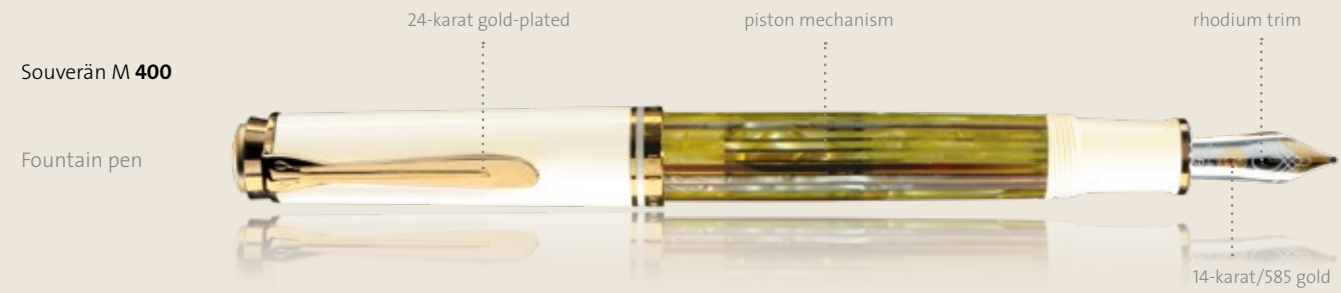

## SOUVERÄN® 400 TORTOISESHELL WHITE.

This exceptional Souverän is produced in the model's classic shape, with bright color nuances giving it a fresh appearance. The transparent, pinstriped material has a soft, golden shimmer. The cap and other parts of the casing feature a subtle white color that gives the model its characteristic radiance. The Souverän Tortoiseshell White was created in 2004 and draws inspiration from its forebear, the M400 Tortoiseshell Brown, as an exceptional color variant.

This decorative piece has ensured many enlightening moments right from the start, and is still a wonderful alternative to black even now. This acts as confirmation of our modus operandi, letting classics stand out from the mass and daring to try new things. The demand for this sumptuous design is considerable.

*Fountain pen, ball pen, mechanical pencil, and rollerball are available to choose from.*

Pelikan 

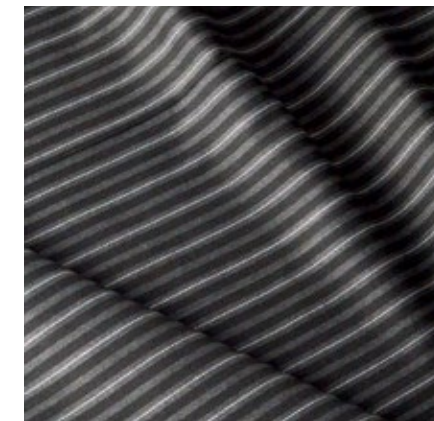

## A KEY PERSONALITY.

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

Stresemann frequently wore this suit made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän with stylish anthracite pinstripes, the "Stresemann".

*His particular suit design was mainly characterized by pinstriped trousers. These trousers form the basis for the tribute the collection is officially making with the title "Stresemann".*

# Elegance

## CLASSIC SERIES.

The Elegance collection represents your entry to the world of high-quality writing instruments. Classic elements such as the typical Pelikan beak-like clip and ornamental rings on every writing instrument make a clear statement about the Pelikan brand. Whether a fountain pen, ballpoint, or mechanical pencil: Our decades of experience and flair for timeless, classic design are incorporated into each Elegance writing instrument. They are truly perfect and unmistakable.

*The M 205 has decorative silver ornamentation and our logo in black on the top, and enjoys an extremely reputable standing: It is bound to impress you upon first glance.*

# CLASSIC

ELEGANCE

## CLASSIC AND TIMELESS.

### MADE IN GERMANY

Classic series are available with silver or golden highlights. All parts in these writing instruments are manufactured in Germany.

The writing instruments in these series are the epitome of classical writing culture. Featuring a perfect appearance with an unmistakable Pelikan design, they form the elegant writing instruments of our timeless, beautiful Classic series. The typical shape of the cap is known across the world and enjoys great popularity.

The Classic Series 150 is the smallest model in our Elegance category of writing instruments. Both the classic fountain pens as well as the ballpoint pens offer an ideal writing experience for graceful hands.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have fitted our Classic Series 200 with the practical cartridge filling system. This mechanism is particularly attractive for travelers or those who prefer to be able to quickly change cartridges. Market needs are always changing, and so are we.

## TWO FILLING SYSTEMS.

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver, chrome edition under the number P 205.

AN INNOVATIVE CLASSIC.

Our **Classic Highlighter DUO** combines two core functions at once: On the one hand, you can mark important lines that need to stand out in a text, and, on the other, you can also jot down your own thoughts. This innovative writing instrument is thus a fountain pen and highlighter simultaneously. The smooth writing experience and vibrant, specially-developed ink are highly impressive. So impressive that the highlighter has already received multiple awards.

# PURA®

ELEGANCE

Pelikan 

A CLEAR STATEMENT.

Straight-lined. Simple. Pure. When you behold the Pura, it is clear that the unmistakable, highly sophisticated design pervades it, from the cap through to the barrel. It has a language entirely of its own, yet one that you can understand immediately. The balanced combination of matte silver and glossy surfaces adds an air of nobility to this aluminum writing instrument, giving it a subtle, elegant silhouette. The solid, spring-mounted silver clip on the cap underscores the elegant, straight lines in this pen's design. The instrument sits comfortably in your hand when writing, in a way that is cool rather than cold.

Featuring a glossy, polished stainless steel nib and the convenient cartridge filling mechanism, it is also clear and simple to use the Pura fountain pen. The series is complemented with ballpoint and rollerball pens so as to accommodate all writing preferences. The end effect: A release of pure writing pleasure. A statement could hardly be any clearer.

# Accessories

## A WORLD OF PRESTIGE.

The selection of original Pelikan accessories available is large. They are that extra something that tops off our range. A soft leather pouch, for example, provides optimal protection for your writing instrument. Our first-class ink has such brilliant pigment that it will make your handwriting radiate, whether you use our classic 4001 or our Edelstein ink with particularly smooth writing quality. All of our accessories exist in beautiful harmony with each other.

*Our Edelstein ink collection is also a visual attraction. The exceptional design of the flacon has already become a collector's item.*

A BRILLIANT INK COLLECTION.

For decades, Pelikan has stood for high-quality, prestigious inks. In 2012 we started a completely new chapter in the world of inks with our exclusive Edelstein Ink Collection. This represented a milestone in the history of Pelikan.

The Edelstein ink consists of nine brilliant colors corresponding to famous precious stones from around the world. Due to the unique formula, the ink enables a particularly smooth writing experience while simultaneously caring for your pen from within. The prestigious bottle's design is reminiscent of a cut diamond, which gives the entire collection an extremely elegant touch.

**EDELSTEIN INK OF THE YEAR**

The Ink of the Year is very much a special highlight. Each year we present a new Edelstein Ink of the Year limited to just that calendar year. The demand for our 2016 color, "Aquamarine", is so great that we have decided to incorporate an Ink of the Year into our regular range for the first time.

*Seven of the Edelstein ink colors are also available in our regular range as ink cartridges with an elegant metal case. Ideal for combining with the Classic P 200 or P 205.*

*Smoky Quartz:

# INK 4001®

ACCESSORIES

Pelikan 

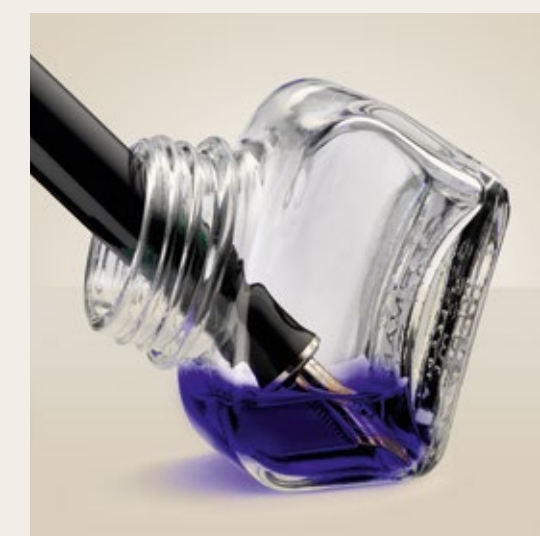

## GENUINE RENOWN.

Our 4001® inks are part of a number of our products that have proven themselves over many decades. First mentioned in a document from 1897, they are still a highly important product for any friend of the Pelikan brand today. Thanks to the formula which has been perfected down to the finest detail, the proven quality of the 4001® inks is consistently assured. They guarantee an even flow of ink, powerful written expression, and vibrant color. A true jack of all trades.

The shape of the 4001® ink bottle makes it easy to refill your fountain pen at any time: Should the ink be nearing its end, you can absorb the last drops left by turning the bottle on its side.

The legendary 4001® is a classic among inks. It enjoys renown all across the world.

## OUTSTANDING LONGEVITY.

Our range offers three various inks that possess a different degree of lightfastness on account of their special composition. Every product is still subject to Pelikan's demanding quality control.

### ● 4001<sup>®</sup> Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast.

It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

We recommend "Fount India" to all customers seeking an ink that is even more permanent than our 4001.

### ●● Fount India<sup>®</sup>

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribtol ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water.

[www.pelikan-passion.com/fount-india](http://www.pelikan-passion.com/fount-india)

Scribtol*	221 135	221131	518	10
Fount India	221 143	221148	518s	6

\* Not for fountain pens

### ●●● Scribtol

The most durable ink in our range is Scribtol. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. On account of its composition which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribtol for use with dip or nib pens.

# PEN CASES

ACCESSORIES

Pelikan 

## OPTIMALLY EQUIPPED.

In order for you to enjoy decades of writing pleasure with your writing instrument, you should protect it the best way possible. Our Pelikan cases for writing instruments are the ideal choice for this and brilliantly safeguard your Pelikan investment. Modern or classic? Patent or smooth leather? It is your choice.

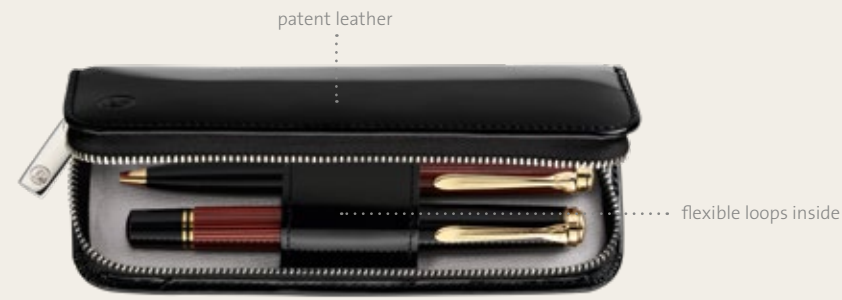

Our classic leather cases in black or black/green are the perfect accessories for all situations. You can safely store one, two, or three writing instruments in them. They are an elegant accessory and come in two versions: in top-grain leather or as smooth nappa leather. Soft as silk and with a black lining.

The colorful, patent leather cases with high-quality zipper are the cherry on top when it comes to modern accessories. They are available as a case for two and make a vibrant statement in three attractive colors.

*The tag on the zipper is imprinted with the Pelikan logo.*
