WRITE WITH

FINE WRITING INSTRUMENTS

LOVE

01|2020

Our black-and-red-striped Souverän M 600 with gold trim and 14-karat gold nib has been one of the most coveted Pelikan classics since its introduction eighteen years ago. It can also be combined with a red heart box.

Pelikan Passion

THIS YEAR, OUR PASSION IS REACHING FULL POWER – with a small commemoration of our fine pieces of gold. The exceptional Pelikan pens are in focus because they are the paragon of one of the most beautiful things in the world: the love of writing. Writing by hand is absolutely in fashion. Young people in particular are rediscovering their fascination of all things handwritten; a fascination which exists in parallel with the digitalized world – that is, hand in hand. Of course, pure handwriting passion was never out of fashion. We consider it our duty to care this culture and promote it with our passionate pretensions to quality. This is what Pelikan is about.

Jens Meyer

Jens Meyer, Global Marketing Manager Fine Writing Instruments

THE LOVE OF Writing

HANDWRITING IS ONE OF HUMANITY'S GREATEST CULTURAL ACCOMPLISHMENTS. IT ALLOWED AND STILL ALLOWS US TO RECORD AND SHARE OUR KNOWLEDGE. WE PRESERVE THIS EXTRAORDINARY ABILITY WITH GREAT PASSION BECAUSE THE REASON WE PUT OUR THOUGHTS ON PAPER IS OUR SHEER LOVE OF WRITING. EVEN THOUGH, OR PERHAPS BECAUSE, IT IS SO EASY TODAY TO QUICKLY TAP OUT SOMETHING ON A SMARTPHONE ... HANDWRITING IS ALIVE. EVEN IN THESE TIMES OF DIGITALIZATION.

WE'RE, LIKE, HANDWRITING'S BIGGEST FANS. IT'S TOTALLY LIT. There are extraordinary experiences to be found when traveling, performing a hobby, in a partnership, when cooking with friends, in sport, among nature, or through other passions. There are, however, many people who find their satisfaction specifically in writing. These people frequently achieve this through line after line of handwriting, putting their thoughts on paper in an entirely individual manner – the one writer or-nately, the other poetically, and yet another informatively. All writers have one thing in common: They love to write from the heart. Pelikan fans from all over the world fondly rekindle us with tales of their special writing experiences.

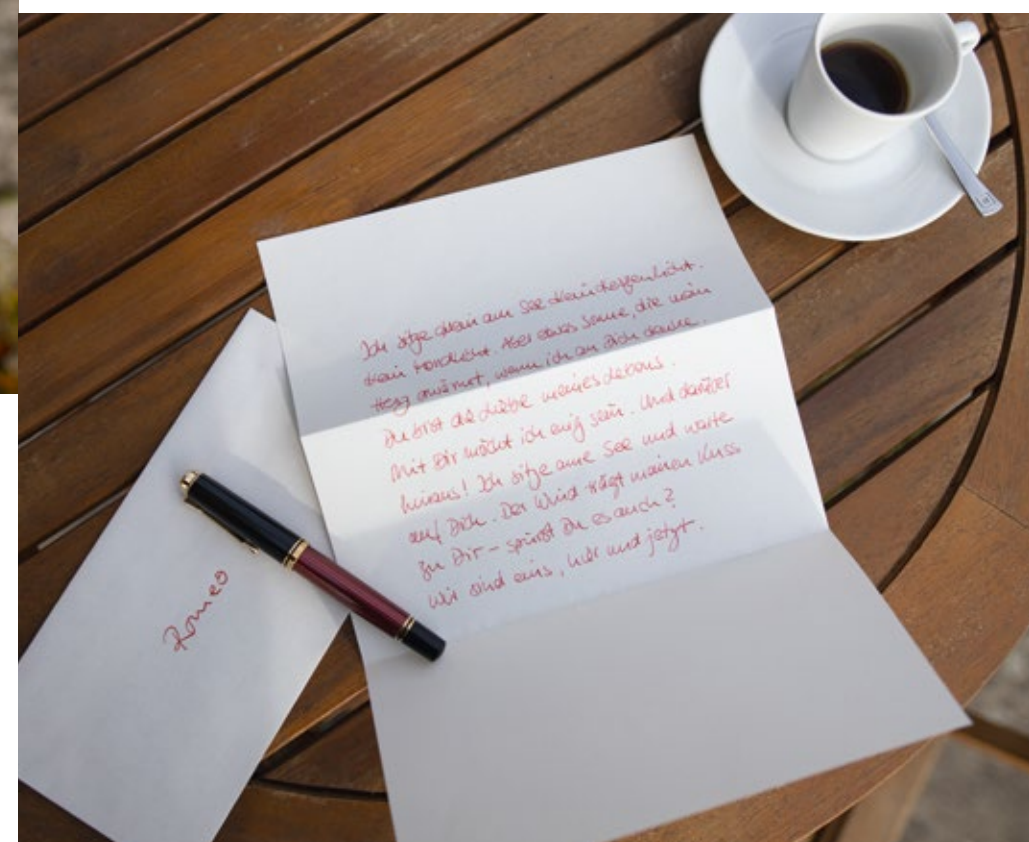

It is also gratifying to see that many young people are again attaching value to handwriting in these times of digitalization. Perhaps because it is so personal and individual. And authentic. Modern, digital communication via smartphone, tablet, and computer continues to take place in parallel. It is not as if one excludes the other.

We love handwriting from the depth of the heart, and we share our enthusiasm with three elementary things: the nib, ink, and paper. Why not keep a travel diary? Write a love letter? Send an invitation to friends? Or document sporting success? There are more than plenty of reasons to put pen to paper. Theoretically, there is also more than plenty of time for writing, too. Once a passion for writing has been discovered and is regularly practiced, one's focus shifts to what truly matters: writing for the sake of writing.

ROMEO & Julia-PROJECT

WILLIAM SHAKESPEARE, one of the most significant poets in world literature, gifted us an incomparable love story in the form of "Romeo and Juliet" – and with this world-famous piece, he also commemorated his own love of writing. The original manuscript produced between 1591 and 1596 is considered lost forever. What a tragedy!

A similar thought was also had by the Juliet Club in Verona, which had a new, handwritten manuscript produced with a nib and ink to celebrate the 400th anniversary of Shakespeare's death. More than 5,000 people from across the world came to Verona to be involved in this passionate piece of writing. The Juliet Club is retaining it in its archive – and Pelikan sponsored the ink for this unique project.

When was the last time you wrote a love letter? Give your beloved a surprise with some personal, handwritten prose ...

TAKING TIME OUT FOR WRITING IS A LUXURY. IT SIMPLY STARTS WITH THE DECISION TO DO SO. Time is without question one of our most cherished resources. Sometimes it exists in abundance, sometimes there is none left. Time can even run out on us. What an awful idea – this is something we will not let happen. Taking time out to write is indeed a treasure. However, anyone can partake in this “indulgence” without having to pay much for it. In fact, there is a special kind of profit to be gained from it. In a life that is often overstimulating, if we allow ourselves this moment of pause, a door opens to a space where time reaches a new dimension – we create something for just ourselves. Something timeless. We can allow our personality to express itself and be who we are.

A person’s handwriting is unmistakable. It is a symbol of everyone’s own unique personality and reflects the mood in which it was produced. Handwriting analysts, or “graphologists”, even read between the lines: They study a person’s handwriting to identify what type of person the writer is.

PERSONALITY IS INDIVIDUAL. IN MANY PLACES. In what place can you switch off particularly well – and then let loose creatively? Almost everyone is bound to have a different answer to that. Those getting started writing should seek out their favorite place or create one for themselves. Whether this place is inside a home or outside under the open sky is up to personal preference. An environment that fosters positive feelings will arouse the senses – and let a love of writing unfold.

WRITING MAKES PEOPLE SMART. AND HAPPY. Writing by hand encourages cognitive development, and this phenomenon has been researched scientifically among school as well as university students. The human brain works at top speed when writing, with neurological and fine motor skills being activated, retentiveness improved, and creativity inspired. That is what the experts say. It is therefore unsurprising that many authors – writing professionals – write their work by hand first. Regardless of the fact that writing can make people smarter, it is also simply lots of fun to write things by hand – and obviously with a nib and ink! The nib’s stroke across paper triggers the production of a special hormone: the happiness hormone! It is a fantastic feeling to let thoughts flow freely, to give fantasies free reign, and to eternalize them on paper with personal handwriting.

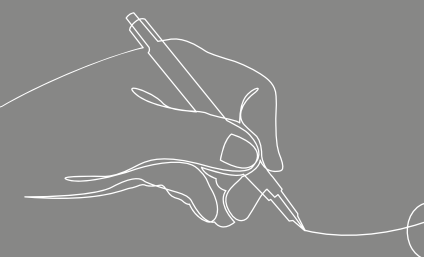

OUR writing tips

1. FINDING THE PLACE TO WRITE.
The place where you feel your best is exactly the right place for your personal writing experience.

2. CREATE THE ATMOSPHERE.
Use subtle lighting, for example, or indulge in your favorite music, a delicious beverage, or a comfy armchair.

3. AVOID DISTRACTIONS.
Simply close the door, remove yourself from anything distracting, and focus all your senses on writing.

4. FIND YOUR TIME TO WRITE.
In the morning, at lunchtime, in the evening, or late at night? Give different times a try and see when you have the creative buzz.

5. USE WASTED TIME.
When you think of wasted time, you think of time spent waiting, for example for the doctor, bus, or train. However, this time is excellent to use for writing.

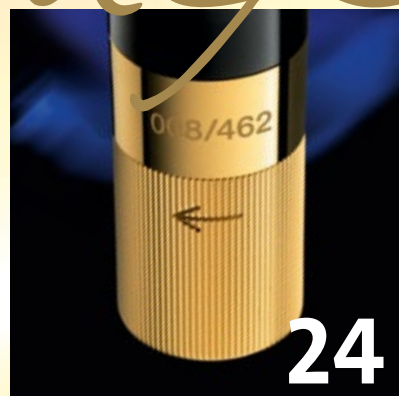

GOOD TO know!
Writing is in fashion. Pelikan has the right writing instrument for any personality and for any occasion. Everything to satisfy a passion for writing.

Quality prevails. With a prestigious Pelikan writing instrument, first-rate Pelikan ink, and fine paper, writing almost happens automatically.

The Pelikan Quality Promise

WE MAKE QUALITY AN EXPERIENCE

Quality is the product of craftsmanship. It is the result of more than a century's expertise. Even so, we rely on much more than just experience. The things that have been tried and tested over decades still need to inspire people both today and tomorrow. In order to meet the most sophisticated of demands at any time, we are consistently working to increase our accomplishment with the greatest passion. We show how you can refine ideas and develop visions. This is what Pelikan quality is all about, and how we have worked for 180 years – and this philosophy continues to guide us every day. Our promise to you.

OUR SERVICES AT A GLANCE

- Unlimited warranty on limited edition pens*
- Three-year warranty on Premium and Elegance collections*
- Spare part, repair, and engraving services

*You can find more information about this in the warranty booklet for your writing instrument or on our Web site at pelikan-passion.com/service

EXPERTS test our

Goldstücke

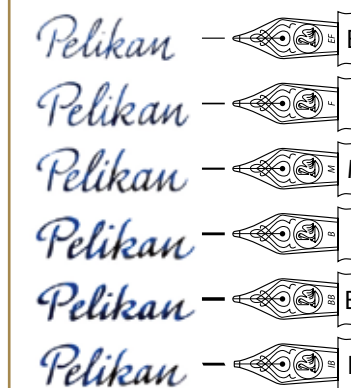

OUR RANGE OF NIBS ALWAYS IMPRESSES WITH ITS EXCEPTIONAL DIVERSITY OF NIB SIZES that provide an excellent variety when writing. How do Pelikan nibs respond in certain writing positions? What are they particularly good for – and where are their limits? Three independent artists and calligraphers answered these key questions in our expert nib test. They are professional writers connected by a love of handwriting and the exacting demands they place on their writing instruments. For this reason, we put many different nib versions to the test: the finest EF nib, the striking BB nib, and the highly individual Make a Wish nib. Here we go...

Our nib test experts in the historic hall of the Pelikan TintenTurm tower building.

From left to right: Petra Beiße, Claus Dorsch, and Sandra Paradiek.

FINE grain

PERFECTION DOWN TO THE LAST DETAIL – SOMETHING REFLECTED IN EACH INDIVIDUAL PELIKAN NIB. This is ensured by our highly qualified employees who use their decades of experience and genuine knack for their craft to turn fine pieces of gold into the piece that forms the heart of every fountain pen: the exceptional Pelikan nibs. The perfect combination of craftsmanship and modern technology is the basis for these small works of art. Depending on the model, nibs are made from 14 or 18-karat gold and are occasionally also rhodium-plated in order to maintain a prestigious, silver appearance. After a process involving numerous diligent steps, each nib's manufacture is completed inhouse with the "final touch": Each nib is inscribed by hand. A certain special touch is required for this, a touch that cannot be replaced by a machine.

The nibs. The writers. The feeling. The prestigious materials for our pieces of gold guarantee a smooth writing experience. All writers need their own, individual nib and matching writing instrument to experience this. The pressure applied to the paper, the hand's position when writing, and the hand's size factor into this, too.

NIB TEST BY EXPERTS

THE Finest

EF nib
Product: Souverän M 600
Black-Red with gold-plated
decoration, ink color:
Edelstein Ink Garnet

WHAT IS THE EF NIB PARTICULARLY SUITABLE FOR? It is the finest Pelikan nib and a good match for many writing styles. It suits very small handwriting as well as large and medium-size handwriting with a low bar height. It is also a good choice for large and medium-size handwriting with very narrow strokes. The EF nib can also be used well to illustrate, sketch, draw, or develop hand-lettering samples.

WHEN DOES THE FINE EF NIB REACH ITS LIMITS? The fine EF nib is only suitable for handwriting that is large and wide in certain situations. It can also quickly reach its limits on letter paper with very high cotton content or a rough surface. During the nib test, I found I had to write very slowly on rough paper surfaces in particular so that the ink would keep flowing.

ARE THERE DIFFERENCES WHEN THE NIB IS MOVED FROM TOP TO BOTTOM OR FROM LEFT TO RIGHT? The nib can write outstandingly in any direction. For curves from right to left – when I push the nib instead of pulling it – the stroke comes out somewhat thinner. However, on many papers, this thinner stroke can barely be seen and has no impact on the written characters in any way.

WHAT SPECIAL FEATURES DISTINGUISH THE EF NIB? The stroke width can be varied by applying a bit of pressure, which slightly changes the span of the stroke. Not too much pressure, though, because the nib is so fine and therefore sensitive. There is a good flow of ink with this type and it continues even when the nib is being moved at speed.

WHAT WRITING DID YOU PRODUCE FOR THE NIB TEST? I created various letters in different handwriting styles and in a range of handwriting sizes. I also wrote a bit of prose separately. As part of one of my projects, I produced hand-lettering-style writing on a postcard.

WHY DID YOU DECIDE ON THIS DESIGN? The EF nib is simply highly suitable for writing letters. It was also to show how various styles of handwriting appear with this nib. By captioning the postcard with rich variations in handwriting, I revealed the many possibilities for the EF nib.

Petra Beiße
age 56 | born in Gronau, Lower Saxony
lives and works as a freelance calligrapher,
designer, and instructor near Hildesheim
handlettering.de

BB nib
Product: Souverän M 805
Black-Blue with silver
decoration, ink color:
Edelstein Ink Onyx

THE Striking

WHAT IS THE BB NIB PARTICULARLY SUITABLE FOR? The BB nib helps make writing look larger thanks to the very broad stroke. I automatically become more sweeping with my handwriting when I use a fountain pen in this format. So, anyone with larger handwriting or looking to use the space on the page more decadently is very well served with this highly striking, broad nib. It also helps very well with forceful writing.

WHEN DOES THE STRIKING BB NIB REACH ITS LIMITS? During the test, I found that the letters tended to get mixed up in each other if I used very small handwriting, leaving tracks or chunks of writing rather than easily legible letters. However, it is precisely this effect that can be very enticing for a professional wishing to design using the nib. For buyers looking to convey a message, it is maybe less of a good choice.

ARE THERE DIFFERENCES WHEN THE NIB IS MOVED FROM TOP TO BOTTOM OR FROM LEFT TO RIGHT? Not that I can tell. I think that a writer has to grow accustomed to a new pen. The nib needs to be allowed a little bit more time at the start for the optimal flow of ink. The M805 immediately felt like a well-worn-in pen when I tried it out on the reference paper. Hooray!

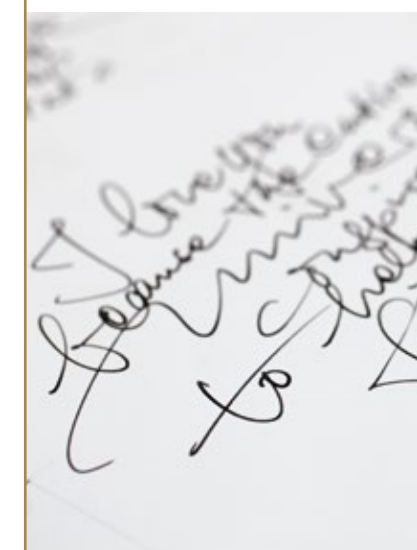

Claus Dorsch
age 53 | born and
lives in Hanover,
works as a freelance calligrapher
and illustrator
[illustratoren.de/de/illustrator/
claues-dorsch](http://illustratoren.de/de/illustrator/claues-dorsch)

WHAT SPECIAL FEATURES DISTINGUISH THE BROAD BB NIB? It makes writing appear very confident. I can also use it to write on an open, more raw kind of paper since the strong flow of ink allows the nib to glide over the paper. In this case, the statement made by the writing is less strong than on the reference paper, but it still works well. It is also a good match for people who are left-handed and tend to “push” the nib across the paper.

WHAT WRITING DID YOU PRODUCE FOR THE NIB TEST? For me, it was important to “imitate” different styles of handwriting with all the depicted quotes. Writing as Audrey Hepburn came across as gentle and charming, like Audrey herself, while Paulo Coelho appeared strong, masculine, and expressive.

WHY DID YOU DECIDE ON THIS DESIGN? My motivation was to create as many variations as possible during the short test period and fully explore the M805 as far as possible. Large and sweeping is a fitting description for both it and the writing it produces.

Sandra Paradiék

age 48 | born in

Oldenburg | lives in Hanover and is a degree-holding, freelance graphic designer

[@miss_patty_design](#)

WHAT SPECIAL FEATURES DISTINGUISH THE NIB THAT WAS PERSONALLY MADE FOR YOU?

The nib was made for me in a way that I could easily and gracefully change writing direction. The stroke width is narrow, which also allows me to perform fine drawings with my fountain pen. This is important for my work because lettering presents differently on paper and on materials.

WHAT IS YOUR MAKE A WISH NIB PARTICULARLY SUITABLE FOR?

I had my own individual nib made for me two years ago and it continues to delight me every day precisely because of its great versatility. My Make a Wish nib is suitable for anything that is created when ink and paper meet. I write, draw, and design with it. It is my favorite nib.

ARE THERE DIFFERENCES WHEN THE NIB IS MOVED FROM TOP TO BOTTOM OR FROM LEFT TO RIGHT?

Generally, I always move the nib as gravity pulls it, so from top to bottom. Rarely the other way around. I gave this a try for the nib test and found there were no problems with it.

WHAT WRITING DID YOU PRODUCE FOR THE NIB TEST?

It was important to me to contribute a word-and-image design, because this is exactly how I would describe my creative work. That is why I produced a graphic mix of different written texts and decorative drawings for the nib test.

THE Individual

WHEN DOES YOUR MAKE A WISH NIB REACH ITS LIMITS?

We could potentially speak of reaching limits if a text calls for a flowing writing process and refilling the ink has the potential to disrupt that flow. That is, if the flow is interrupted unplanned. I seem to use quite a lot of ink just for writing tests when the nib is already "warmed up". Apart from that, my nib can withstand a great deal.

WHY DID YOU DECIDE ON THIS DESIGN?

By creating something out of lettering and illustration, I showed the versatility of my nib. Thanks to the special "Make a Wish Nib", I can even turn it on its head and write with the other side of the nib. That requires a certain amount of skill, yet it is also a fantastic feature for various stroke widths.

Make a Wish Nib

The custom-made nib emphasizes an individual's handwriting.

"Even the noise made by the nib when writing is factored in when the personal nib is cut," reports a highly impressed Sandra Paradiék. Detlev Köhn, from Engineering, Fine Writing, receives high praise for this individual service which delights fountain pen fans.

"It is fascinating how amazing the world of color can be. There is a new highlight each year. It is the joy of writing distilled in a flacon."

Jana Jegella, Global Product Manager, Fine Writing Instruments

Edelstein[®] INK OF THE YEAR 2020

BY PELIKAN FANS FOR PELIKAN FANS.

Launching the Edelstein Ink of the Year has caused a color frenzy all around the world: Dedicated Pelikan fans have chosen their favorite color in a Facebook campaign. They were given the ability to mix their own color online, give it their own jewel-based name, and upload their ink creation to the public gallery for voting. A jury consisting of 5 Pelikan company representatives and 5 Pelikan fans from across the world selected the winner from the 15 most popular colors. Our Ink of the Year 2020 carries the almost supernatural name "Moonstone" and will be available from March 2020. We are extremely grateful to our fans, who will surely impress very many handwriting enthusiasts with their choice.

GOOD TO
know!

Pelikan Edelstein ink is the jewel of all inks: a unique formula and a writing experience as smooth as silk in a beautifully designed flacon.

PELIKAN HUB *international*

5,800 fans.
199 cities.
49 countries.
1 passion.

Our Pelikan Hub 2019 once again showed that this exceptional network event is growing from year to year – beyond all national borders. Our new microsite offers exciting snapshots of previous hubs and all the information for registering to participate.

A HUB IS A PIVOT, A FOCUS OF ACTIVITY. For Pelikan fans, a hub is a place where they can meet, exchange experiences, and network beyond national borders. That is why handwriting enthusiasts all around the world come together at Pelikan Hubs to share in their fascination for elegant writing instruments – organized by fans, for fans, at 6:30 p.m. local time on specific dates. A delight to behold!

“It’s fantastic that so many Pelikan fans are all simultaneously connected with each other around the world!”

Beginning with the first Pelikan Hub in 2014, which counted roughly 900 fans from Sydney to Seattle, this had grown to over 5,000 participants worldwide in September 2019! They show one another unusual Pelikan fountain pen editions and first purchases or bring pens to exchange, always carefully stowed away in soft leather cases. They talk, laugh, give each other tips, and celebrate a mutual love of handwriting. A passionate community of fans that continues to grow larger.

All ages are represented among the participants. However different these people may be, they all have one thing in common: a passion for high-quality Pelikan fountain pens and a love of handwriting. All the information about the Pelikan Hubs and how to register for the next event can be found on our new microsite: **pelikan-hubs.com**

No Pelikan Hub is complete without an opportunity for participants to try out and swap different writing instruments.

GERMAN DESIGN AWARD WINNER 2019

PELIKAN Passion Magazine

We celebrated the launch issue of our customer magazine Passion in 2018, our anniversary year. We created a special magazine for handwriting culture, which arouses interest through its variety of topics as well as its sleek and elegant design.

We received the 2019 German Design Award for the magazine's creative design, coming out on top in one of the world's most esteemed design competitions. Winning this award makes us very proud. It also inspires us to use all our passion to develop further issues of Passion.

Both customers and retailers of ours around the world were fascinated in equal measure by the first issue, with the total release of 40,000 copies quickly being snapped up. The second issue has been in stores around the world since summer last year. Passion #3 will follow in August 2020.

The launch issue of our customer magazine: esteemed and awarded. Find the whole world of prestigious writing instruments at: pelikan-passion.com

INFORMATIVE & inspirational.

Our Web site pelikan-passion.com will welcome you with comprehensive information about our company, a diverse product range, and helpful service tips. Keep up to date with all of our news and be the first to hear about all of our goings-on through our convenient email newsletter.

ART in the TintenTurm

THE MARVELOUS PELIKAN WORLD REVEALS ITSELF IN THE FORMER HEAD OFFICE ON THE PELIKAN PROPERTY, IN THE TINTENTURM "TOWER OF INK". The historic hall is palatial, providing ample space for changing exhibitions, readings, and events. Memorabilia from the company's starting years is cared for in the Pelikan Museum. Creative new products and legendary penman's and penwoman's classics can be purchased at the Pelikan Shop. The TintenTurm has a special flair it cannot help but share!

BEHIND THE scenes

Dive into our world of passion, craftsmanship, and precision. Our online media library gives you rare insights into the various stages of production, from handling the exclusive materials to the completion of our finest writing instruments. pelikan-passion.com

Limited Editions

RARE BEAUTY.

We are synonymous with precision. With extraordinary richness of detail. With exclusive, unique pieces. This passion is particularly reflected in everything we do related to limited edition pens – design concepts are transformed into fountain pens with a love of detail. Like the Seven Wonders of the World, for example, which inspire collectors all around the world. The edition number on the grip of every pen attests to the uniqueness of this limited, one-time edition. Rare beauty that arouses great desire.

Our anniversary icon "Herzstück 1929" pays tribute to the original from the 1920s, with which Pelikan revolutionized the market. This Limited Edition is already rewriting the history of coveted writing instruments.

Maki-e
**UNIQUE
 WORKS OF ART**
 by the masters

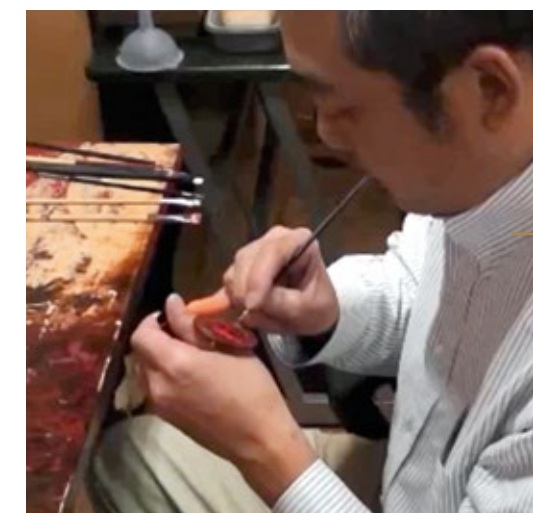

SPRINKLED PICTURES RICH IN TRADITION.

Maki-e is a traditional Japanese craft passed down from generation to generation. When translated, the name of the technique means “sprinkled picture”, a meaning derived from the fine gold and silver dust and, occasionally, also the dust of shaved precious stones sprinkled across the fountain pen. Mastering this intricate art form requires many years of intensive training as well as a high degree of skill.

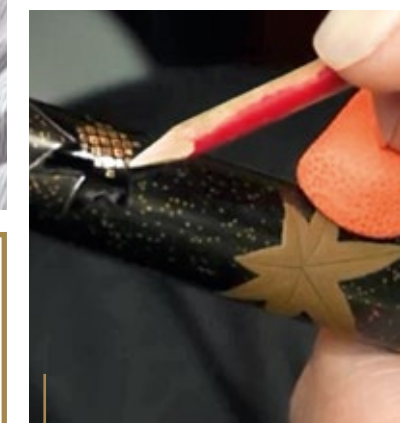

All Pelikan Maki-e fountain pens are handmade, unique pieces created to last. By using specially prepared Urushi lacquer acquired from the sap of the East Asian lacquer tree and finely ground precious metals, intricate motifs are created in an extremely laborious, time-consuming process. The coveted Maki-e unique collection is pure luxury.

pelikan-passion.com/movie

On our website, you can watch Japanese artist Mr. Mushu Yamazaki carry out his fascinating work. “The art of creating a Maki-e fountain pen.”

The number of steps required to produce these exceptional motifs is very high. The ginkgo leaf is lovingly decorated with gold plating called “kirigane”.

LIFE-LONG QUALITY

The features of the Maki-e materials are unique. Despite its solid consistency, the set lacquer maintains a high level of elasticity which permanently protects it against the development of cracks. The richness of detail will continue to amaze even after many years. All Pelikan Maki-e fountain pens are handmade, unique pieces created to last.

Peacock

HERZSTÜCK
1929

LIMITED EDITIONS

Pelikan 

COVETED ICON

We commemorated the 90th anniversary of the piston mechanism with a special limited edition: the “Herzstück 1929”. It brings technical achievement into focus with its exquisite design. The large, transparent ink window provides a view of the piston and its function. This gives due recognition to the importance of the patent, which had enormous implications for all subsequent Pelikan piston fountain pens.

With an entirely black-and-gold finish, the writing instrument strikes a particularly exclusive appearance – a characteristic that is also reflected in the limited release of 462 pieces worldwide only. The size of the release is based on the last three digits of the historic patent number, tying in with the milestone development of the piston mechanism.

The individual edition number is finely lasered into the shaft of the fountain pen for each collector.

HISTORICAL LOOK AND FEEL IN A NEW DESIGN

This icon reflects the traditional shape of the fountain pen from the M101N series, quintessentially Pelikan. The transparent ink window stretches the length of the ink reservoir, giving a view of the pen’s interior. Both the curved, beak-like clip and the 18-karat gold nib are embellished with a special imprint. The historic Pelikan logo, with the original four chicks gathered in their nest, decorates the “Herzstück 1929” on the nib and at the top of the cap.

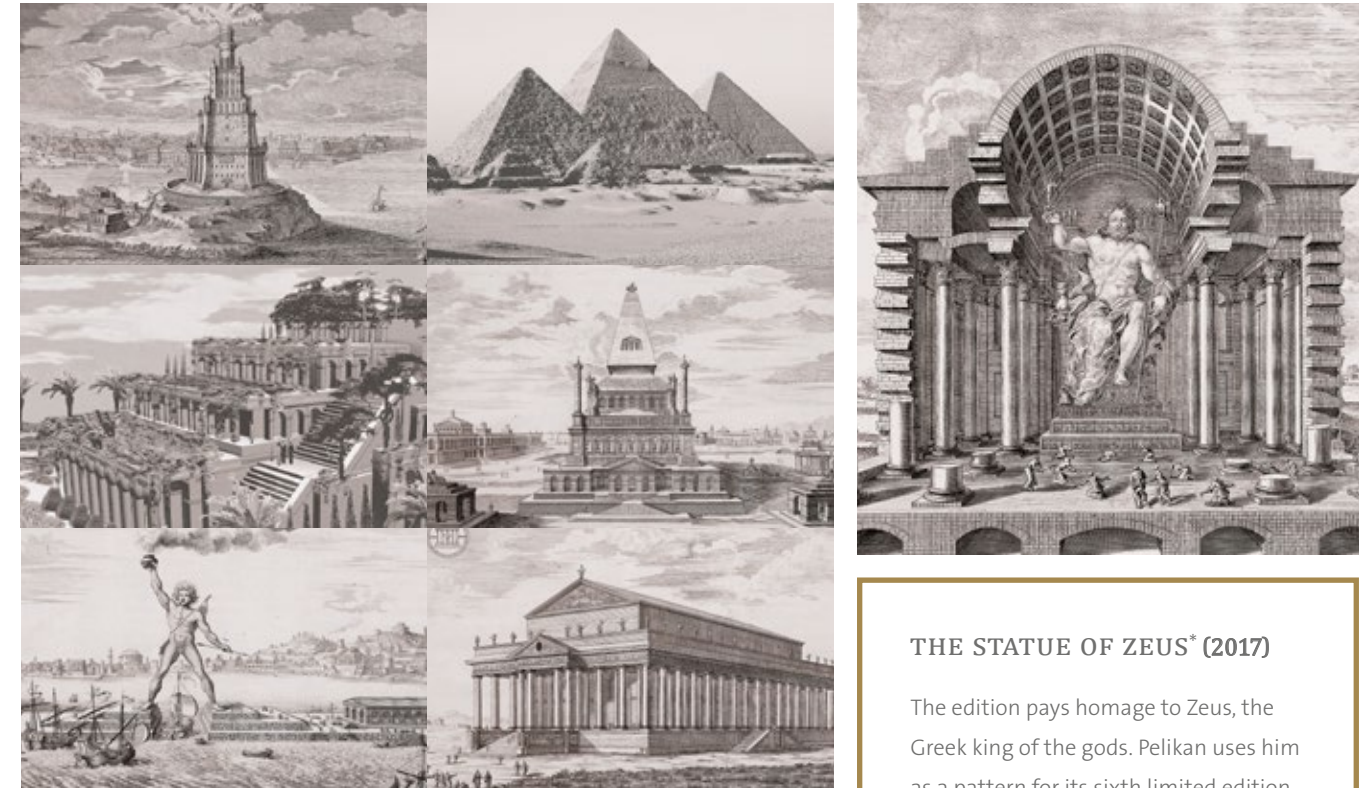

THE STATUE OF ZEUS
Limited Edition

LIMITED EDITIONS

Pelikan

SEVEN WONDERS OF THE WORLD.

THE STATUE OF ZEUS* (2017)

The edition pays homage to Zeus, the Greek king of the gods. Pelikan uses him as a pattern for its sixth limited edition, giving him divine radiance with precious materials: Fine rose gold, ebony and ivory color shades adorn this magnificent edition. Copies are limited to 300 pens worldwide.

The Seven Wonders of the World form a list that brings together architectural masterpieces of the Ancient World, which have held deep fascination over the centuries with their lasting allure.

These impressive structures include the Great Pyramids of Giza, the Colossus of Rhodes, the Temple of Artemis, the Hanging Gardens of Babylon, the Tomb of Mausolos II, the Lighthouse of Alexandria, and the Statue of Zeus at Olympia. Pelikan pays tribute to these perfect examples of ancient craftsmanship with its exquisite limited edition **the Seven Wonders of the World.**

Every edition is offered in a special designed gift box.

* Only limited quantities available. Already sold out at Pelikan.

Special Editions

A TROVE OF CREATIVE TREASURES.

An unbelievable amount of passion is put into our special editions. They represent something extraordinary and are anything but average in terms of their overall appearance. We only reveal the design of our latest special editions shortly before putting them on the market, where they are awaited with anticipation. No model is similar to the other, with our trove being filled abundantly with creative treasures. This is what it means to bring luxurious writing to perfection.

One of the most beautiful renditions of heavy metal: Our elegant Metal Striped pen features the typical striped design element of the Souverän® series.

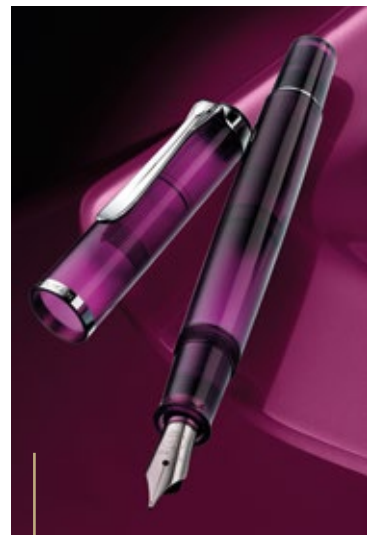

LIMITED Classics

SPECIAL EDITIONS

*M 605 Souverän
White-Transparent,

favorite in any collection.*

Premium

PRESTIGIOUS PERFECTION.

The search for the perfect symbiosis of classic elegance and sophisticated quality will lead you directly to our Premium collection. Fine nibs made of 14 or 18-karat gold crown each fountain pen. Gold and silver ornamentation ensure the unique Pelikan design is completely perfect. In these pens you can witness the combination of expertise and craftsmanship in one fascinatingly smooth writing experience – prestige for highly varied demands and preferences.

TOLEDO® AN ARTWORK in Spanish style

PREMIUM

Pelikan 

The art of Damascus patterns is thousands of years old. It comprises an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers, where it was perfected over centuries, especially in the city of Toledo.

Pelikan commenced using this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades almost unchanged. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany. As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.

TOLEDO® BLACK

Fountain pen with piston filling mechanism | 18K/750 bi-color gold nib with rhodium trim | 24K gold-plated highlights

Pelikan 

A WORLD-FAMOUS CLASSIC.

1950 was the year of birth of our Model 400. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and the company's flagship product. We are extremely proud of our stylish creation having aroused unconditional desire for decades now.

In the 1980s, the series was given the name "Souverän", meaning sovereign in German. However, people often refer to it by its colloquial name "Stresemann" after the striped suits worn by the German Foreign Minister of the same name in the 1920s. This name continues to write history today, and will do so in the future too. In a manner befitting a sovereign. Today, this fountain pen exists in many variations and, despite the continual refinements of the design and technology, its fundamental mechanics remain the same.

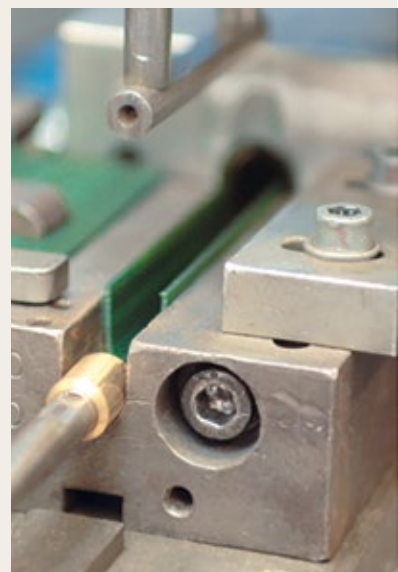

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

MADE TO MEASURE BY THE MASTERS.

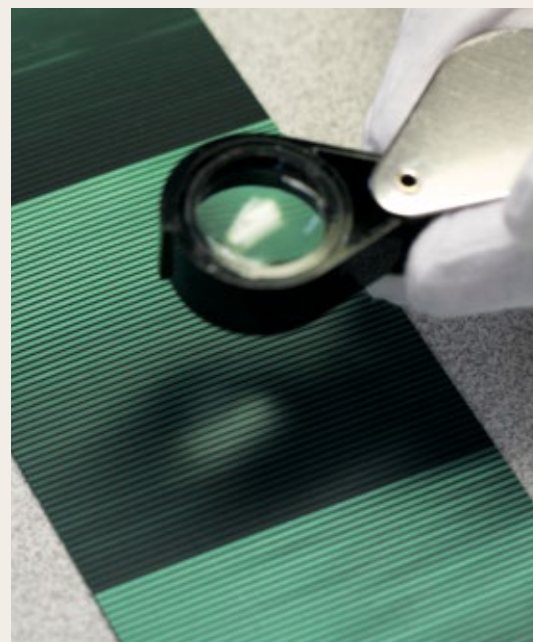

The production of the Souverän sleeve is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant luster.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

HAND-SELECTED, UNIQUE PIECES:

The design of the Souverän is unique, and every fine, connected pinstripe on the material shines in individual appearance. From Model 300 through to 1000, the surfaces are diamond-cut, giving them additional sheen. Our black models are made of high-grade resin, considered the "platinum" of all plastic materials, and are self-polishing. They are characterized by an extremely rich sheen and their solid, durable surfaces.

Pelikan 

SOUVERÄN® 400 TORTOISESHELL-WHITE.

This exceptional Souverän is produced in the model's classic shape, with bright color nuances giving it a fresh appearance. The transparent, pinstriped material has a soft, golden shimmer. The cap and other parts of the casing feature a subtle white color that gives the model its characteristic radiance. The Souverän Tortoiseshell White was created in 2004 and draws inspiration from its forebear, the M400 Tortoiseshell Brown, as an exceptional color variant.

This decorative piece has ensured many enlightening moments right from the start, and is still a wonderful alternative to black even now. This acts as confirmation of our *modus operandi*, letting classics stand out from the mass and daring to try new things. The demand for this sumptuous design is considerable.

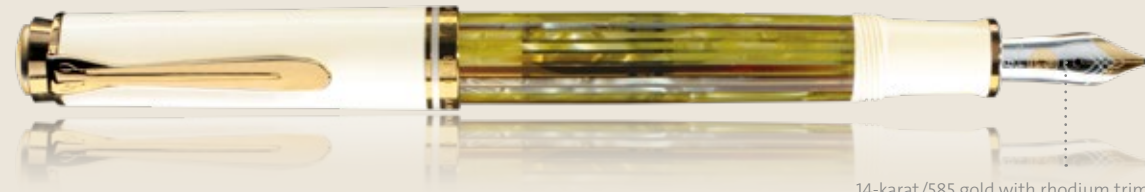

Fountain pen, ball pen, mechanical pencil, and rollerball are available to choose from.

Pelikan 

A KEY PERSONALITY.

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

His particular suit design was mainly characterized by pinstriped trousers. These trousers form the basis for the tribute the collection is officially making with the title "Stresemann".

Stresemann frequently wore this suit, made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän with stylish anthracite pinstripes, the "Stresemann".

Elegance

CLASSIC SERIES.

The Elegance collection represents your entry into the world of high-quality writing instruments. Classic elements such as the typical Pelikan beak-like clip and ornamental rings on every writing instrument make a clear statement about the Pelikan brand. Whether a fountain pen, ballpoint, or mechanical pencil: Our decades of experience and flair for timeless, classic design are incorporated into each Elegance writing instrument. They are truly perfect and unmistakable.

The M 205 has decorative silver ornamentation and our logo in black on the top, and enjoys a highly reputable standing: It is bound to impress you upon first glance.

CLASSIC

ELEGANCE

CLASSIC AND TIMELESS.

MADE IN GERMANY

Classic series are available with golden or silver-colored, highly polished highlights. All parts in these writing instruments are manufactured in Germany.

The writing instruments in these series are the epitome of classical writing culture. Featuring a perfect appearance with an unmistakable Pelikan design, they form the elegant writing instruments of our timeless, beautiful Classic series. The typical shape of the cap is known across the world and enjoys great popularity.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have fitted our Classic Series 200 with the practical cartridge filling system. This mechanism is particularly attractive for travelers or those who prefer to be able to quickly change cartridges. Market needs are always changing, and so are we.

New to the range is the 200 model in a harmonious combination of pastel green marble and muted white. The shaft is slightly transparent and appears to glow warmly. The transparent ink window is clear and the decorative elements are gold-plated.

TWO FILLING SYSTEMS.

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

THE CLASSIC CARTRIDGE FOUNTAIN PEN

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver-colored, highly polished version under the number P 205.

* Size with cap placed onto the backend of the fountain pen.

OVERVIEW OF THE CLASSICS.

CLASSIC HIGHLIGHTER

ELEGANCE

AN INNOVATIVE CLASSIC.

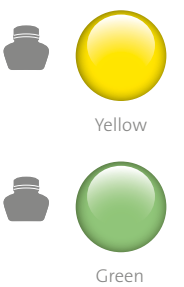

Our **Classic Highlighter DUO** combines two core functions at once. Firstly, you can mark important lines that need to stand out in a text, while secondly, you can also jot down your own thoughts. This innovative writing instrument is thus a fountain pen and highlighter at once. The smooth writing experience and vibrant, specially developed ink are highly impressive. So impressive that the highlighter has already received multiple awards.

* The highlighter ink should only be used with the fountain pen 205 DUO Highlighter exclusively. Ink feeder and ink are especially developed to work out in combination.

PURA®

ELEGANCE

Pelikan 

A CLEAR STATEMENT.

Straight-lined. Simple. Pure. When you behold the Pura, it is clear that the unmistakable, highly sophisticated design pervades it, from the cap down to the barrel. It has a language entirely of its own, yet one that you can understand immediately. The balanced combination of matte silver and glossy surfaces adds an air of nobility to this aluminum writing instrument, giving it a subtle, elegant silhouette. The solid, spring-mounted silver clip on the cap underscores the elegant, straight lines in this pen's design. The instrument sits comfortably in your hand when writing, in a way that is cool rather than cold.

Featuring a glossy, polished stainless steel nib and the convenient cartridge filling mechanism, it is also clear and simple to use the Pura fountain pen. The series is complemented by ballpoint and rollerball pens so as to accommodate all writing preferences. The end effect: A release of pure writing pleasure. A statement could hardly be any clearer.

Accessories

A WORLD OF PRESTIGE.

The selection of original Pelikan accessories is multiplex. They are that extra something that tops off our range. A soft leather pouch, for example, provides optimal protection for your writing instrument. Our first-class ink has such brilliant pigments that it will make your handwriting radiate, whether you use our classic 4001 or our Edelstein ink with a particularly smooth writing quality. All of our accessories exist in beautiful harmony with each other.

Our Edelstein ink collection is also a visual attraction. The exceptional design of the flacon has already become a collector's item.

**EDELSTEIN[®]
INK COLLECTION**

A BRILLIANT INK COLLECTION.

For decades, Pelikan has stood for high-quality, prestigious inks. In 2012 we started a completely new chapter in the world of inks with our exclusive Edelstein Ink Collection. This represented a milestone in the history of Pelikan.

The Edelstein ink consists of nine brilliant colors corresponding to famous precious stones from around the world. Due to the unique formula, the ink enables a particularly smooth writing experience while simultaneously caring for your pen from within. The prestigious bottle's design is reminiscent of a cut diamond, which gives the entire collection an extremely elegant touch.

EDELSTEIN INK OF THE YEAR

The Ink of the Year is very much a special highlight. Each year we present a new Edelstein Ink of the Year limited to just that calendar year. What is special about Star Ruby 2019 is that this gleaming ink is also available in a set with the matching Classic M 205 Star Ruby writing instrument (limited availability).

Seven of the Edelstein ink colors are also available in our regular range as ink cartridges with an elegant metal case. Ideal for combining with the Classic P 200 or P 205.

TINTE 4001®

GENUINE RENOWN.

Our 4001® inks are part of a number of our products that have proven themselves over many decades. First mentioned in a document from 1897, they are still a highly important product for any friend of the Pelikan brand today. Thanks to the formula which has been perfected down to the finest detail, the proven quality of the 4001® inks is consistently assured. They guarantee an even flow of ink, powerful written expression, and vibrant color. A true jack of all trades.

The shape of the 4001® ink bottle makes it easy to refill your fountain pen at any time: Should the ink be nearing its end, you can absorb the last drops left by turning the bottle on its side.

The legendary 4001® is a classic among inks. It enjoys renown all across the world.

HIGH LIGHTFASTNESS.

Tinte 4001
Blue black
page 113

● 4001® Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast. It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

This ink is not document proofed. We recommend “Fount India” to all customers seeking an ink that is even more permanent than our 4001.

●● Fount India®

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribto! ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water. pelikan-passion.com/fount-india

Very lightfast ink

	order no.	EAN 4012700-	match code	units
30 ml Fount India	221 143	221148	518s	6

DOCUMENT-PROOF AND NONFADING.

●●● Scribto!

The most durable ink in our range is Scribto!. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. Due to its composition, which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribto! for use with dip or nib pens.

* Not for fountain pens

●●● Ballpoint refills

Our ballpoint refills in blue, black, and red colors satisfy all the criteria imposed on document-proof inks. These criteria include: smudge resistance, erasability, lightfastness, and water resistance. The special ballpoint paste is fast-drying, cannot be modified, and cannot be removed without leaving a trace. The ink also remains legible after a defined period of exposure to sunlight, which means that it cannot fade beyond a certain degree. If the ink comes into contact with water and runs, the lines of the writing still remain visible. The paste for ballpoint refills 337 and 38 is document-proof under ISO 12757-2.

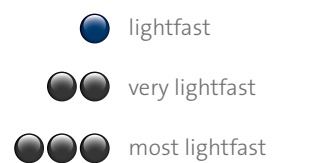

GOOD TO
know!

Our range offers three various inks that possess a different degree of lightfastness on account of their special composition. Every product is still subject to Pelikan's demanding quality control.

PEN CASES

OPTIMALLY EQUIPPED.

In order for you to enjoy decades of writing pleasure with your writing instrument, you should protect it the best way possible. Our Pelikan cases for writing instruments are the ideal choice for this and brilliantly safeguard your Pelikan investment. Modern or classic? Patent or smooth leather? It is your choice.

Our classic leather cases in black or black/green are the perfect accessories for all situations. You can safely store one, two, or three writing instruments in them. They are an elegant accessory and come in two versions: in top-grain leather or as smooth nappa leather. Soft as silk and with a black lining.

The colorful, patent leather cases with high-quality zipper are the cherry on top when it comes to modern accessories. They are available as a case for two and make a vibrant statement in three attractive colors.

The tag on the zipper is imprinted with the Pelikan logo.

COLLECTORS' BOX

ACCESSORIES

AN ELEGANT STORAGE SOLUTION.

Once bitten by the collector's spirit, it is very difficult to stop – and that is something any collector will confirm. However, there sadly does come a point where a solution must be found to store all the acquired treasures. Pelikan has for this reason created a collector's chest that satisfies every need while being stunning to look at and convenient to use.

The collector's chest provides space for 24 writing instruments, with even the large Souverän® M 1000 fitting inside perfectly. The frame is made of durable MDF finished with a high-quality wooden veneer and a protective, transparent varnish. To avoid scratching the writing instruments stored inside, the pen holder inserts are covered in artificial leather in a cream color.

There is a transparent panel made of safety glass that allows for an admiring gaze at the collection at any time. The plastic feet ensure that the chest can also be placed on more sensitive surfaces. The Pelikan logo can be found on the front as well as on the back.
