

AN EYE FOR

FINE WRITING INSTRUMENTS

DETAIL

With fine platinum stripes, gleaming abalone shell, and an elegant Urushi lacquer sourced from the sap of a Japanese tree, our Raden Green Ray radiates in all colors of the rainbow. It is a sumptuous work of art!

Pelikan Passion

THE YEAR 2021 WILL BRING US CLOSER TOGETHER AGAIN PIECE BY PIECE. We are looking for a new normality. What could it look like, though? We are looking toward the future and pursuing interaction and creation in a very intense way. Our view of the “far away” is shifting to a focus on the “close up.” That is why we are delving further into the subject matter and showing you how we give our best behind the scenes, both personally and technically. With the greatest passion for detail, we are going to guide you a little bit closer into our world, where we are constantly exploring the new, the beautiful, and the positive. An interest in writing is an essential part of this, and one which is growing in importance for many people. A beautiful sign of our closeness to each other.

Jens Meyer

Jens Meyer, Global Marketing Manager, Fine Writing Instruments

HIGH TECH MEETS

Manufacture

*Hand in hand for
perfection. How
we guarantee the
utmost quality.*

PELIKAN FANS ACROSS THE ENTIRE WORLD HOLD OUR FINE WRITING INSTRUMENTS IN HIGH REGARD. HOWEVER, MANY ARE UNAWARE HOW METICULOUS THE MANUFACTURING METHODS AND HOW INDIVIDUAL THE ELEGANT MATERIALS ARE. WE MAKE NO SECRET OF IT: THE PASSION FOR DETAIL THAT IS REFLECTED IN EVERY DECISION MADE IS WHAT MAKES OUR PRODUCTS SO COVETED. WE ARE AVOUED ADHERENTS OF THE COMBINATION OF HANDIWORK AND HIGH TECH – TAKE A LOOK FOR YOURSELF!

WE ATTACH THE GREATEST IMPORTANCE TO THE QUALITY OF OUR MATERIALS AND SOPHISTICATED MANUFACTURING METHODS. Our plant in Vöhrum, Lower Saxony, produces solely Pelikan writing instruments that satisfy the most exacting of demands. Starting with the still-uncut wedges – like the striped material for the Souverän – and continuing through to the individual diamond-turned parts, we inject massive amounts of passion and craftsmanship into each step of the manufacturing process.

Our writing instruments are made using different methods and materials. Much is created through a great degree of craftsman's finesse, and some of it requires machining using high-tech manufacturing methods. The ideal combination of these two guarantees the best results. Here and on the next page we describe an illustrative selection of possibilities.

Every manufacturing process is subject to rigorous quality standards. That means each Souverän writing instrument (in this case the Tortoiseshell) is well checked before leaving our workshop.

Striped material of a highly individual nature.

The striped appearance is the primary distinguishing feature of our Souverän classic. The material for those stripes is known as cellulose acetate and is manufactured exclusively for Pelikan. Using cotton as a base material, an elaborate process combines it with high-grade color pigments and pearl effects to produce a malleable mass which is molded into a large block.

This process is repeated in parallel with a second block of a different color. Both blocks are cut into thin sheets that are layered on top of one another and assembled into a new block.

Sheets are again cut out of this block and are then used as the starting material for our Souverän writing instruments.

This special process explains how the striped Souverän looks and the Tortoiseshell series with individual pearl effects maintain its fascinating appeal. Following the many months taken for manufacturing, what results are exclusive, unique pieces with a luxurious design. More information about this on page 6.

M 805 Raden Royal Platinum. Its basic platform is the Souverän black. In addition, it is finished using the traditional Japanese raden technique, with gleaming white mother-of-pearl shell, premium urushi lacquer, and platinum striping.

PREFERRED format: UNIQUE

The color of our unique pieces varies, and that is not a production error. Rather, it is our absolute intention. There are always different pearl effects that are created when manufacturing striped material, and both the stripe width as well as the gradation of the color pigments vary.

GOOD TO know!

If your favorite piece is not working or you need a specific spare part, Pelikan Passion Service can help. More info on page 12.

OUR MANUFACTURING METHODS ARE HIGHLY DIVERSE, AND THE METHOD WE EMPLOY DEPENDS ON THE WRITING INSTRUMENT WE HAVE IN MIND.

1 | SOUVERÄN BLACK-GREEN STRIPES

Producing the Souverän model requires a wealth of experience and is very arduous. The material for the stripes comes delivered as a large slab. During the first step, we cut long, narrow strips from it that are then stamped into small sheets. We heat, bend and weld these small sheets, and then inject plastic into the tubes created in order to make the finished ink tank. The shaft's exterior is diamond-turned into the quintessential spherical shape, polished to a high sheen, welded with the forepart, and assembled together with other components to make the finished product. You can find the Souverän from page 42 onward.

2 | CLASSIC 200 MARBLED

Blocks of material are cast from an acrylic base material mixed with gleaming color pigments and pearl effects. They are then made into round bars from which we turn marble-finished workpieces. We also inject plastic into the tubes created in order to make the finished tank. To achieve the quintessential Pelikan shape, the writing instrument is turned from its outside with a natural diamond and, lastly, polished to a high sheen. You can find the Classic series from page 72 onward.

3 | TOLEDO GOLD – HANDMADE PIECES OF EXTRAORDINARY UNIQUENESS

Hand-carved detailing made of fine gold adorns our special premium-segment Toledo, referencing the millennia-old craftsmanship of damascene metal decoration. The motif etched into the sterling-silver shaft is blackened in a special process while the raised elements are carved by hand, breathing life into the Pelikan bird through the curves of its beak, face, and feathers. The finished motif is perfected with 24-karat gold plating. Thanks to the artful handiwork of the goldsmith, each Toledo is given its own personal character. You can find the Toledo from page 38 onward.

4 | MAKI-E – TRADITION-FILLED JAPANESE HANDICRAFT

The name stands for the highly cultivated Japanese craft, which translated means “sprinkled picture.” Specially trained artists in Japan turn our Souverän 800/1000 writing instruments into valuable works of art with unique “sprinkled” illustrations made of fine gold and silver dust and pulverized precious stones. The outline of the motif is sketched out and completed with burned urushi lacquer. The artist sets small gold leaf into place, sprinkles gold over the shaft multiple times, applies a lacquer to the shaft, polishes it, and paints on intricate detail with a few brush hairs. You can find the Maki-e from page 26 onward.

OTHER MANUFACTURING METHODS

The monotone classics in our range are made from extruded plastic materials and manufactured, assembled by hand, and finished using the same intensive processes as all our Pelikan writing instruments. But the real highlight? The materials used are self-polishing, so they retain their extremely high sheen over many years.

The Classic 215 Rings is based on the same method. A brass case for the shaft ensures a solid weight. This case is finished beforehand by cutting in the rings as design elements, galvanizing them in a silver color, and concluding with a clear lacquer for protection. For our limited edition pieces, we take pleasure in employing additional ideas for finishing techniques. That, however, is another story ...

The Pelikan Quality Promise

WE MAKE QUALITY AN EXPERIENCE

Quality is the product of craftsmanship. It is the result of more than a century's expertise. Even so, we rely on much more than just experience. The things that have been tried and tested over decades still need to inspire people both today and tomorrow. In order to meet the most sophisticated of demands at any time, we are consistently working to increase our accomplishment with the greatest passion. We show how you can refine ideas and develop visions. This is what Pelikan quality is all about, and how we have worked for 180 years – and this philosophy continues to guide us every day. Our promise to you.

OUR SERVICES AT A GLANCE

- Unlimited warranty on limited edition pens*
- Three-year warranty on Premium and Elegance collections*
- Spare part, repair, and engraving services

*You can find more information about this in the warranty booklet for your writing instrument or on our Web site at pelikan-passion.com/service

PERSONAL favorites

PELIKAN SERVICE cares for the details

PEINE, A TOWN ROUGHLY 30 KILOMETERS AWAY FROM HANOVER, IS HOME TO OUR PELIKAN FACTORY. IT IS A PLACE THAT CREATES THOUSANDS UPON THOUSANDS OF WRITING INSTRUMENTS THAT ARE BELOVED ON ALL CONTINENTS. ANOTHER JEWEL IS PELIKAN PASSION SERVICE, WHICH HAS TAKEN CARE OF WORK ORDERS FOR OUR RETAILERS AND CUSTOMERS HERE FOR DECADES. IT IS A CENTER OF COMPETENCE WITH A UNIQUE SELLING POINT: IT HAS FOUR HIGHLY QUALIFIED AND REMARKABLY DEVOTED WORKERS WHO LOOK AFTER THE RECEIPT, REPAIR, AND RETURN OF THE BELOVED WRITING IMPLEMENTS THAT ARE SENT IN FOR REPAIR, CLEANING, OR ENGRAVING. A SMALL, FANTASTIC TEAM WHICH USES ITS EXTENSIVE EXPERTISE TO MAKE PEOPLE ACROSS THE WHOLE WORLD HAPPY!

Is your favorite piece broken?
The staff at Pelikan Passion Service work for customers around the globe and know very well the passion that our writing instruments inspire. They inspect each one in fine detail for this very reason.

Ink not flowing properly?
 Our workers flush water through the ink feeder so that the ink flows again without stopping.

THE TEAM IS CHARACTERIZED BY BELONGING AND EXPERIENCE. Every Pelikan Passion Service employee has acquired exceptional proficiency so that these prestigious Pelikan writing instruments from around the world end up in the best of hands. Each worker is there out of passion. Each worker sees what must be done. If one of them is ever unsure, there is always another colleague to help. It is not a profession that can be taught, rather, it consists in many years of experience that are gained within the company. The specialists have been party to all steps in production so that they could develop intense familiarity with the writing instruments and “deep dive” into the aftersales service. They are intimately acquainted with the wide range of models, which reaches into the thousands. They must know every part and component in order to repair an instrument. This incomparable wealth of knowledge is essential for their high-responsibility task. There is also something that each worker carries inside them, and it is not something that is always self-evident: an emotional connection with “their” premium writing instruments. The entire team is united in finding their work to be a pleasure every day and the most satisfying thing of all to be making their customers happy.

Another of the Pelikan Service possibilities: engraving to personalize a writing instrument or freshen up some lettering.

INK IN THE VEINS, an eye for the essential

WHAT TASKS DOES THE TEAM HAVE? Thousands of shipments are sent in every year. All customer complaints? Not at all! Often it is just the new nib being swapped for another size. Other writing instruments are sent in for maintenance or to have their clips and caps exchanged. For others, individual components or the piston mechanism need to be repaired or changed – the large ink-blue cupboard has about 17,000 spare parts at the ready. Individual engravings are frequently desired, with names, original signatures, or sometimes even hearts if it is to be a gift.

The team truly tries to repair every writing instrument, including heavily damaged or historical ones. The oldest was from 1931: an M 100 with a dried-on cork seal. It was given a contemporary rubber seal so that it could endure for another 100 years. Precision, passion, and a knack for the craft are absolutely essential. If a repair cannot be performed, we offer an equivalent instrument as a replacement for pieces under warranty.

Engravings are cut into the material and colored completely with hard wax, with the remaining dye being polished away. The color remains solely within the depth of the engraving, hardens, and lasts close to an eternity.

THERE IS NOT A DAY WITHOUT GRATITUDE. The service team receives an enormous amount of positive feedback. One well-known actor expressed his gratitude with CDs and audiobooks because his beloved M 200 had been repaired so extraordinarily well. An elderly lady, meanwhile, sent in hand-crafted Christmas decorations because her M 400 – the last remaining object that had belonged to her deceased husband – finally wrote again! Page-long letters, e-mails, cookies, chocolates, and many more tokens of appreciation show how close writing instruments are to people’s hearts – for both parties!

NIB sizes

PERFECTION DOWN TO THE LAST DETAIL – SOMETHING REFLECTED IN EACH INDIVIDUAL PELIKAN NIB. This is ensured by our highly qualified employees. They use their decades of experience and genuine knack for their craft to turn fine pieces of gold into the piece that forms the heart of every fountain pen: the exceptional Pelikan nibs. The perfect combination of craftsmanship and modern technology is the basis for these small works of art. Depending on the model, nibs are made from 14- or 18-karat gold and are occasionally also rhodium-plated in order to achieve a prestigious, silver appearance. After a process involving numerous meticulous steps, each nib's manufacture is completed in-house with the "final touch": each nib is tested while flowing without ink over the paper. A certain special touch is required for this – a touch that cannot be replicated by a machine.

The nibs. The writers. The feeling. The prestigious materials for our pieces of gold guarantee a smooth writing experience. All writers need their own, individual nib and matching writing instrument to experience this. The pressure applied to the paper, the hand's position when writing, and the hand's size factor into this, too.

HOW TO OBTAIN our service

ALL PELIKAN WRITING INSTRUMENTS IN NEED OF REPAIR OR OTHER SERVICES, SUCH AS MAINTENANCE, CLEANING, NIB EXCHANGE, ETC., CAN BE HANDLED BY OUR PELIKAN PASSION SERVICE. WE ASK OUR INTERNATIONAL PELIKAN DEALERS TO KINDLY FOLLOW THESE STEPS:

- 1. CONTACT YOUR LOCAL PELIKAN DISTRIBUTOR IN YOUR COUNTRY** and describe the customer inquiry. The Pelikan distributor will clarify further steps with the export customer service at Pelikan headquarters.
- 2. YOU AS A PELIKAN DEALER** receive all information from the local Pelikan distributor, so that you can clarify the further procedure in direct contact with the end consumer.
- 3. IF THE WRITING INSTRUMENT NEEDS TO BE SENT IN**, please send it directly to your local Pelikan distributor – always individually packed in our repair bag! Very important: Include detailed information on the nature of the fault or a description of the desired service.
- 4. OUR REPAIR SERVICE WILL SEND THE REPAIRED WRITING INSTRUMENT BACK TO THE LOCAL PELIKAN DISTRIBUTOR AND GET IN CONTACT WITH YOU AS THE DEALER.** Then the repaired writing instrument will be sent to you, so you can forward it to the end consumer.

You will find a list of contact persons on pelikan-passion.com or in the warranty booklet of the writing instrument. If we do not have a Pelikan representative in your country, please send us an e-mail: international@pelikan.com

The custom-made nib emphasizes an individual's handwriting.

Make a Wish
NIB

UTMOST PRECISION AND INDIVIDUALITY: THE PERFECT MIX.

A popular date for all of our customers with a passion for writing, for beginners, and for collectors of high-quality writing instruments who want to have a "Make a Wish Nib" made for them. To fulfill the requirements associated with Covid, the offering has been slightly reduced and is now a one-on-one service. The extremely cheerful atmosphere is appreciated greatly by all guests.

"The level of skill that the specialists have when it comes to nibs is awe-inspiring. Even the noise made by the nib as it writes is factored in when the personal nib is cut," reports a highly impressed Sandra Paradiak. Detlev Köhn, from Engineering, Fine Writing, receives high praise for this individual service which delights fountain pen fans.

GOOD TO know!

We cut only two-tone, gold Souverän nibs in various sizes.

GOLDEN BERYL

“The development of a gleaming Edelstein ink is a challenge, especially for use in a fountain pen.

The result, however, is truly worth its weight in gold.”

Jana Jegella, Global Product Manager, Fine Writing Instruments

Edelstein[®]

INK OF THE YEAR

2021

THE EDELSTEIN INK OF THE YEAR VARIANTS CAN BE TRACED BACK TO THE WISHES OF PELIKAN FANS.

In previous years we collected many color suggestions through our Facebook promotions – and put wonderful shades of ink on the market. Inks could be mixed online and given their own, jewel-based name. A jury of 5 Pelikan company representatives and 5 Pelikan fans from across the world selected the winner from the most popular colors.

This one had been on the hotlist for a long time: “Golden Beryl,” and it is the 2021 Ink of the Year with its enchanting, glowing shade of gold. Developing such an ink is a challenge because the tiny particles must be tolerated well by the fountain pen’s ink feeder. If the fountain pen is treated with care and washed under running water from time to time, there will be nothing standing in the way of handwriting joy and a golden handwriting result.

-  Golden Beryl 2021*
-  Moonstone 2020
-  Star Ruby 2019
-  Olivine 2018
-  Smoky Quartz 2017

-  Aquamarine 2016
-  Amethyst 2015
-  Garnet 2014
-  Amber 2013
-  Turmaline 2012

GOOD TO know!

Pelikan Edelstein ink is the jewel of all inks: a unique formula and a writing experience as smooth as silk in a beautifully designed flacon.

* Launch March 2021

PELIKAN HUB *international*

5,738 fans.
199 cities.
46 countries.
1 passion.
Our Pelikan Hub 2019 once again showed that this exceptional network event is growing from year to year – beyond all national borders.

Unfortunately the 2020 hub has had to be canceled due to the coronavirus pandemic. We very much hope to be able to meet again in 2021!

A HUB IS A PIVOT, A FOCUS OF ACTIVITY. For Pelikan fans, a hub is a place where they can meet, exchange experiences, and network beyond national borders. That is why handwriting enthusiasts all around the world come together at Pelikan Hubs to share in their fascination for elegant writing instruments – organized by fans, for fans, at 6:30 p.m. local time on specific dates. A delight to behold!

“It’s fantastic that so many Pelikan fans are all simultaneously connected with each other around the world!”

Beginning with the first Pelikan Hub in 2014, which counted roughly 900 fans from Sydney to Seattle, this had grown to over 5,000 participants worldwide by September 2019! They show one another unusual Pelikan fountain pen editions and first purchases or bring pens to exchange, always carefully stowed away in soft leather cases. They talk, laugh, give each other tips, and celebrate a mutual love of handwriting. This is a passionate community of fans that continues to grow larger.

All ages are represented among the participants. However different these people may be, they all have one thing in common: a passion for high-quality Pelikan fountain pens and a love of handwriting. All the information about the Pelikan Hubs can be found on our microsite: pelikan-hubs.com

No Pelikan Hub is complete without an opportunity for participants to try out and swap different writing instruments.

Passion 1

Passion 2

PELIKAN Passion magazine

We celebrated the launch issue of our customer magazine Passion in 2018, our anniversary year. We created a special magazine for handwriting culture, which arouses interest through its variety of topics as well as its sleek and elegant design.

We received a Special Mention at the 2019 German Design Awards for the magazine's creative design, a distinction from one of the world's most esteemed design competitions. Being awarded this title makes us very proud. It also inspires us to seize all our passion and keep developing further issues of Passion.

Both customers and retailers are fascinated in equal measure worldwide and demand increases with every year. This third issue has been available in stores globally since fall 2020 with a total of 43,000 copies in circulation. The next edition of Passion is already eagerly anticipated.

Limited Editions

RARE BEAUTY

We are synonymous with precision. With extraordinary richness of detail. With exclusive, unique pieces. This passion is particularly reflected in everything we do related to limited edition pens – design concepts are transformed into fountain pens with a love of detail. Like the Seven Wonders of the World, for example, which inspire collectors all around the world. The edition number on the grip of every pen attests to the uniqueness of this limited, one-time edition. Rare beauty that arouses great desire.

Pelikan has outdone itself with its latest work of maki-e art: The majestic Kingfisher M 1000 is a combination of classic craftsmanship and traditional Japanese taka maki-e and togidashi maki-e painting techniques. The kingfisher birds and burning red leaves create an image of a color-filled fall day in Japan.

Maki-e
**UNIQUE
WORKS OF ART**
by the masters

SPRINKLED PICTURES RICH IN TRADITION

Maki-e is a traditional Japanese craft passed down from generation to generation. When translated, the name of the technique means “sprinkled picture,” a meaning derived from the fine gold and silver dust and, occasionally, also the dust of shaved precious stones sprinkled across the fountain pen. Mastering this intricate art form requires many years of intensive training as well as a high degree of skill.

All Pelikan Maki-e fountain pens are handmade, unique pieces created to last. By using specially prepared Urushi lacquer acquired from the sap of the East Asian lacquer tree and finely ground precious metals, intricate motifs are created in an extremely laborious, time-consuming process. The coveted Maki-e unique collection is pure luxury.

pelikan-passion.com/movie

On our website, you can watch Japanese artist Mr. Mushu Yamazaki carry out his fascinating work. “The art of creating a Maki-e fountain pen.”

The number of steps required to produce these exceptional motifs is very high. The ginkgo leaf is lovingly decorated with gold plating called “kirigane.”

LIFE-LONG QUALITY

The features of the Maki-e materials are unique. Despite its solid consistency, the set lacquer maintains a high level of elasticity which permanently protects it against the development of cracks. The richness of detail will continue to amaze even after many years. All Pelikan Maki-e fountain pens are handmade, unique pieces created to last.

Maki-e Kingfisher, 2020*

* Only limited quantities available. Already sold out at Pelikan.

COVETED ICON

We commemorated the 90th anniversary of the piston mechanism with a special limited edition: the “Herzstück 1929”*. It brings technical achievement into focus with its exquisite design. The large, transparent ink window provides a view of the piston and its function. This gives due recognition to the importance of the patent, which had enormous implications for all subsequent Pelikan piston fountain pens.

With an entirely black-and-gold finish, the writing instrument strikes a particularly exclusive appearance – a characteristic that is also reflected in the limited release of 462 pieces worldwide only. The size of the release is based on the last three digits of the historic patent number, tying in with the milestone development of the piston mechanism.

The individual edition number is finely lasered into the shaft of the fountain pen for each collector.

**HISTORICAL LOOK AND FEEL
IN A NEW DESIGN**

This icon reflects the traditional shape of the fountain pen from the M101N series, quint-essentially Pelikan. The transparent ink window stretches the length of the ink reservoir, giving a view of the pen’s interior. Both the curved, beak-like clip and the 18-karat gold nib are embellished with a special imprint. The historic Pelikan logo, with the original four chicks gathered in their nest, decorates the “Herzstück 1929” on the nib and at the top of the cap.

* Only limited quantities available. Already sold out at Pelikan.

HERZSTÜCK
1929

THE STATUE OF ZEUS
Limited Edition

LIMITED EDITIONS

SEVEN WONDERS OF THE WORLD

THE STATUE OF ZEUS* (2017)

The edition pays homage to Zeus, the Greek king of the gods. Pelikan uses him as a pattern for its sixth limited edition, giving him divine radiance with precious materials: Fine rose gold, ebony and ivory color shades adorn this magnificent edition. Copies are limited to 300 pens worldwide.

The Seven Wonders of the World form a list that brings together architectural masterpieces of the Ancient World, which have held deep fascination over the centuries with their lasting allure.

These impressive structures include the Great Pyramids of Giza, the Colossus of Rhodes, the Temple of Artemis, the Hanging Gardens of Babylon, the Tomb of Mausolos II, the Lighthouse of Alexandria, and the Statue of Zeus at Olympia. Pelikan pays tribute to these perfect examples of ancient craftsmanship with its exquisite limited edition **the Seven Wonders of the World**.

Every edition is offered in a special designed gift box.

* Only limited quantities available. Already sold out at Pelikan.

Special Editions

A TROVE OF CREATIVE TREASURES

An unbelievable amount of passion is put into our special editions. They represent something extraordinary and are anything but average in terms of their overall appearance. We only reveal the design of our latest special editions shortly before putting them on the market, where they are eagerly awaited. No model is similar to any other, with our trove being filled abundantly with creative treasures. This is what it means to bring luxurious writing to perfection.

*The Souverän 805 Ocean
Swirl sparkles in turquoise
and green shades that
change with the lighting.
An interplay of light and
shadow reminiscent of
vast ocean depths.*

LIMITED Classics

SPECIAL EDITIONS

*M 605 Souverän
White-Transparent,
2017**

*Classic M 205
Amethyst, 2015**

The classic shape of the Souverän is the perfect basis for our special editions. Unfailingly creative ideas give these series their individual flair.

Exceptional materials, colors, and designs are continually reinterpreted. The result is extraordinary pens that are highly coveted. The editions vary in the types of pen offered – whether they come as a fountain, ballpoint, or rollerball pen and the sizes that are available. All editions are limited and some models are only available in very few numbers.

VIOLET-WHITE
This special edition is a harmonious continuation of our series of striped Souverän highlights. With radiant violet and white elements made of high-grade resin.

* Special edition, limited. Sold out at Pelikan.

GERMANY

Elegant, striped appearance; sophisticated technology, a coveted piece. Our classic Souverän in Black-Blue is a favorite in any collection.

Premium

PRESTIGIOUS PERFECTION

The search for the perfect symbiosis of classic elegance and sophisticated quality will lead you directly to our Premium collection. Fine nibs made of 14 or 18-karat gold crown each fountain pen. Gold and silver ornamentation ensure the unique Pelikan design is completely perfect. In these pens you can witness the combination of expertise and craftsmanship in one fascinatingly smooth writing experience – prestige for highly varied demands and preferences.

TOLEDO® AN ARTWORK in Spanish style

PREMIUM

The art of Damascus patterns is thousands of years old. It comprises an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers, where it was perfected over centuries, especially in the city of Toledo.

Pelikan commenced honoring this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades almost unchanged. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany. As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.

Pelikan 

A WORLD-FAMOUS CLASSIC

1950 was the year of birth of our Model 400. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and the company's flagship product. We are extremely proud of our stylish creation having aroused unconditional desire for decades now.

In the 1980s, the series was given the name "Souverän," meaning sovereign in German. However, people often refer to it by its colloquial name "Stresemann" after the striped suits worn by the German Foreign Minister of the same name in the 1920s. This name continues to write history today, and will do so in the future too. In a manner befitting a sovereign. Today, this fountain pen exists in many variations and, despite the continual refinements of the design and technology, its fundamental mechanics remain the same.

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

MADE TO MEASURE BY THE MASTERS

The production of the Souverän sleeve is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant luster.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

HAND-SELECTED, UNIQUE PIECES:

The design of the Souverän is unique, and every fine, connected pinstripe on the material shines in individual appearance. From Model 300 through to 1000, the surfaces are diamond-cut, giving them additional sheen. Our black models are made of high-grade resin, considered the "platinum" of all plastic materials, and are self-polishing. They are characterized by an extremely rich sheen and their solid, durable surfaces.

SOUVERÄN®

WHITE COLLECTION

PREMIUM

SOUVERÄN® WHITE COLLECTION

Pelikan has added to its range a new jewelry-like piece that dazzles with purist style: the Souverän® 405 Silver-White. The bright, silver sheen underscores this elegant interpretation of our Souverän classic. Its pendant, the Souverän® 400 Tortoiseshell-White, has enraptured Pelikan fans and lit up the market since 2004, and together these models offer another perfect alternative to our sought-after series in black.

The light-toned shaft of this timelessly beautiful series is manufactured from cellulose acetate through an intensive process. This exceptional material corresponds harmoniously with the luxurious stripes so that whether silver or tortoiseshell, the design is simply unique. The cap and the other parts of the casing give the model its characteristic white radiance.

SNOWY SPIRIT

You can acquire the Souverän® 405 Silver-White as a piston fountain pen or as a retractable ballpoint pen.

The Souverän® 400 Tortoiseshell-White is available as a piston fountain pen, retractable ballpoint pen, mechanical pencil, or rollerball pen.

STRESEMANN®

PREMIUM

Pelikan 

A KEY PERSONALITY

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

Stresemann frequently wore this suit, made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän with stylish anthracite pinstripes, the "Stresemann."

His particular suit design was mainly characterized by pinstriped trousers. These trousers form the basis for the tribute the collection is officially making with the title "Stresemann."

Elegance

CLASSIC SERIES

The Elegance collection represents your entry into the world of high-quality writing instruments. Classic elements such as the typical Pelikan beak-like clip and ornamental rings on every writing instrument make a clear statement about the Pelikan brand. Whether a fountain pen, ballpoint, or mechanical pencil: Our decades of experience and flair for timeless, classic design are incorporated into each Elegance writing instrument. They are truly perfect and unmistakable.

The M 205 has decorative silver ornamentation and our logo in black on the top, and enjoys a highly reputable standing: It is bound to impress you upon first glance.

CLASSIC

ELEGANCE

CLASSIC AND TIMELESS

MADE IN GERMANY

Classic series are available with golden or silver-colored, highly polished highlights. All parts in these writing instruments are manufactured in Germany.

The writing instruments in these series are the epitome of classical writing culture. Featuring a perfect appearance with an unmistakable Pelikan design, they form the elegant writing instruments of our timeless, beautiful Classic series. The typical shape of the cap is known across the world and enjoys great popularity.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have fitted our Classic Series 200 with the practical cartridge filling system. This mechanism is particularly attractive for travelers or those who prefer to be able to quickly change cartridges. Market needs are always changing, and so are we.

New to the range is the 200 model in a harmonious combination of pastel green marble and muted white. The shaft is slightly transparent and appears to glow warmly. The transparent ink window is clear and the decorative elements are gold-plated.

TWO FILLING SYSTEMS

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

THE CLASSIC CARTRIDGE FOUNTAIN PEN

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver-colored, highly polished version under the number P 205.

* Size with cap placed onto the backend of the fountain pen.

OVERVIEW OF THE CLASSICS

CLASSIC HIGHLIGHTER

ELEGANCE

AN INNOVATIVE CLASSIC

Our **Classic Highlighter DUO** combines two core functions at once. Firstly, you can mark important lines that need to stand out in a text, while secondly, you can also jot down your own thoughts. This innovative writing instrument is thus a fountain pen and highlighter at once. The smooth writing experience and vibrant, specially developed ink are highly impressive. So impressive that the highlighter has already received multiple awards.

ELEGANCE

COLORFUL VARIETY

A DIVERSE RANGE OF COLORS

PURA® Black-Silver and PURA® Blue-Silver are available while stocks last.

They will be replaced by the new colors PURA® Anthracite and PURA® Petrol.

The stylish PURA® is characterized by its angles. Its clean design and classic lines give it an incredibly straight lined feel, making for sheer handwriting joy! Its internal features are also thoroughly impressive, with double-anodized aluminum ensuring an abundantly confident style in a balanced interplay of matte color tones and glossy silver surfaces. An example of quality in its most elegant form.

Our PURA® 2020 series is showing its colors – new colors. Anthracite and Petrol, two very cool tones, make for a powerful mix in our range and replace classic Black-Silver and Blue-Silver. Three additional on-trend colors also spice up the previous color palette: Bordeaux, Mocha, and Deep Green, all shrouded in a warm aura. The subtle silver finish remains unchanged throughout the range. All color variants in the series are available as cartridge fountain pens, ballpoint pens, and rollerball pens, offering sheer handwriting joy for any writing preference.

Accessories

A WORLD OF PRESTIGE

The selection of original Pelikan accessories is multiplex. They are that extra something that tops off our range. A soft leather pouch, for example, provides optimal protection for your writing instrument. Our first-class ink has such brilliant pigments that it will make your handwriting radiate, whether you use our classic 4001 or our Edelstein ink with a particularly smooth writing quality. All of our accessories exist in beautiful harmony with each other.

Our Edelstein ink collection is also a visual attraction. The exceptional design of the flacon has already become a collector's item.

EDELSTEIN® INK COLLECTION

A BRILLIANT INK COLLECTION

For decades, Pelikan has stood for high-quality, prestigious inks. In 2012 we started a completely new chapter in the world of inks with our exclusive Edelstein Ink Collection. This represented a milestone in the history of Pelikan.

The Edelstein ink consists of nine brilliant colors corresponding to famous precious stones from around the world. Due to the unique formula, the ink enables a particularly smooth writing experience while simultaneously caring for your pen from within. The prestigious bottle's design is reminiscent of a cut diamond, which gives the entire collection an extremely elegant touch.

EDELSTEIN INK OF THE YEAR

The Ink of the Year is very much a special highlight. Each year we present a new Edelstein Ink of the Year limited to just that calendar year. What is special about Moonstone 2020 is that this gleaming ink is also available in a set with the matching Classic M 205 Moonstone writing instrument (limited availability). In 2021 it will be the Edelstein Ink of the Year "Golden Beryl"*

Eight of the Edelstein ink colors are also available in our regular range as ink cartridges with an elegant metal case. Ideal for combining with the Classic P 200, P 205 and PURA®.

*Moonstone:
Edelstein Ink of the Year 2020*

TINTE 4001®

GENUINE RENOWN

Our 4001® inks are part of a number of our products that have proven themselves over many decades. First mentioned in a document from 1897, they are still a highly important product for any friend of the Pelikan brand today. Thanks to the formula which has been perfected down to the finest detail, the proven quality of the 4001® inks is consistently assured. They guarantee an even flow of ink, powerful written expression, and vibrant color. A true jack of all trades.

The shape of the 4001® ink bottle makes it easy to refill your fountain pen at any time: Should the ink be nearing its end, you can absorb the last drops left by turning the bottle on its side.

The legendary 4001® is a classic among inks. It enjoys renown all across the world.

HIGH LIGHTFASTNESS

Tinte 4001
Blue black
page 113

● 4001® Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast. It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

This ink is not document proofed. We recommend “Fount India” to all customers seeking an ink that is even more permanent than our 4001.

4001 | Blue black

●● Fount India®

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribto! ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water. pelikan-passion.com/fount-india

DOCUMENT-PROOF AND NONFADING

●●● Scribto!

The most durable ink in our range is Scribto!. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. Due to its composition, which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribto! for use with dip or nib pens.

* Not for fountain pens

Scribto!*

●●● Ballpoint refills

Our ballpoint refills in blue, black, and red colors satisfy all the criteria imposed on document-proof inks. These criteria include: smudge resistance, erasability, lightfastness, and water resistance. The special ballpoint paste is fast-drying, cannot be modified, and cannot be removed without leaving a trace. The ink also remains legible after a defined period of exposure to sunlight, which means that it cannot fade beyond a certain degree. If the ink comes into contact with water and runs, the lines of the writing still remain visible. The paste for ballpoint refills 337 and 38 is document-proof under ISO 12757-2.

Black

Red

GOOD TO
know!

Our range offers three various inks that possess a different degree of lightfastness on account of their special composition. Every product is still subject to Pelikan's demanding quality control.

PEN CASES

OPTIMALLY EQUIPPED

In order for you to enjoy decades of writing pleasure with your writing instrument, you should protect it the best way possible. Our Pelikan cases for writing instruments are the ideal choice for this and brilliantly safeguard your Pelikan investment. Modern or classic? Patent or smooth leather? It is your choice.

Our classic leather cases in black or black/green are the perfect accessories for all situations. You can safely store one, two, or three writing instruments in them. They are an elegant accessory and come in two versions: in top-grain leather or as smooth nappa leather. Soft as silk and with a black lining.

The colorful, patent leather cases with high-quality zipper are the cherry on top when it comes to modern accessories. They are available as a case for two and make a vibrant statement in three attractive colors.

COLLECTORS' BOX

AN ELEGANT STORAGE SOLUTION

Once bitten by the collector's spirit, it is very difficult to stop – and that is something any collector will confirm. However, there sadly does come a point where a solution must be found to store all the acquired treasures. Pelikan has for this reason created a collector's chest that satisfies every need while being stunning to look at and convenient to use.

The collector's chest provides space for 24 writing instruments, with even the large Souverän® M 1000 fitting inside perfectly. The frame is made of durable MDF finished with a high-quality wooden veneer and a protective, transparent varnish. To avoid scratching the writing instruments stored inside, the pen holder inserts are covered in artificial leather in a cream color.

There is a transparent panel made of safety glass that allows for an admiring gaze at the collection at any time. The plastic feet ensure that the chest can also be placed on more sensitive surfaces. The Pelikan logo can be found on the front as well as on the back.
