SPECIAL EDITION

Souverän® 605 Green-White

This distinctive new fine writing instruments series will convince you. These colours will brighten your day!

The white parts are made of high-quality resin that is first turned and then polished to a high sheen. The barrel with the white and green stripes is made of cellulose acetate that was very carefully manufactured and turned into a sleeve.

The characteristic double rings at the back of the barrel and on the cap are integrated into the material. This is done with the highest precision in order to obtain a virtually seamless transition between the materials. The fountain pen has a completely rhodinized 14 carat gold nib and will be available in 4 nib widths EF, F, M and B. The matching ballpoint pen has a twist-mechanism.

Every single writing instrument is mounted by hand and carefully checked to fulfill the strictest quality criteria.

The Souverän® 605 Green-White is encased in a specially designed gift box.

Available from July 2021, only in limited stocks.
