

Getting organised has never been easier – thanks to **maX.file** ring binders.

- The new maX.file ring binders by herlitz are ergonomically designed, practically sized and come in numerous vibrant colours – getting organised has never been easier.
- Place your old binders in the circular file: Thanks to their narrow spines, maX.file ring binders are true space savers. Yet the large ring mechanism allows you to store loads of paperwork. Even sheet protectors and dividers easily fit into maX.file ring binders. The optimised design of the ring mechanism makes opening, closing and browsing through the binder a snap.
- The crown jewel of every shelf: With their contemporary design and vibrant colours, maX.file ring binders are true head-turners. The large selection of colours ensures your customers will find the perfect binder for every setting and mood.

Dedicated to the environment – and to the quality of our products.

- The perfect size for all tastes: maX.file protect ring binders are available in the A4 and A5 sizes. The embossed herlitz logo on the spine of each binder adds a refined touch. The spine label can be removed if desired without leaving any residues.
- All maX.file ring binders are FSC™ certified.
- maX.file ring binders are a high-quality, durable product: That's why we offer a ten-year guarantee on all maX.file products.

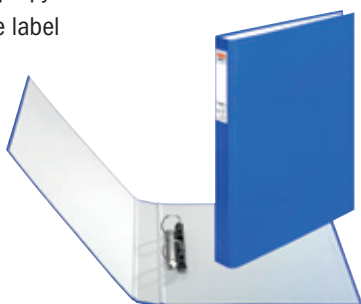

The mark of responsible forestry

All good things come in threes.

- Meet the newest members of the herlitz team: protect 2R, protect 4R and design 2R. The three binder types allow your customers to quickly find the most suitable product.
