

# Pelikan griffix®

May we introduce -  
“the new ones”:

New  
products  
available from  
March/April  
2024

The ergonomic products  
of the **griffix family**  
have grown!

For  
smart  
beginnings

[www.pelikan.com](http://www.pelikan.com)

## The griffix family

The **start of school** is an important **milestone in the lives** of children and parents. That is why the **best possible equipment** should accompany this new phase of life.

With griffix, we want to be THE reliable companion for school starters **aged 6 - 9**. One that offers colourful, ergonomically thought-out product solutions "For smart beginnings".

A smart beginning, because products with special extras not only make learning easier – it is more fun and gives children a lot of motivation. But, only **colourful, ergonomically** well thought-out products are not enough for us: the griffix family is made **for the generation of tomorrow** and, in addition to a strong product benefit, must also face the challenges of tomorrow.

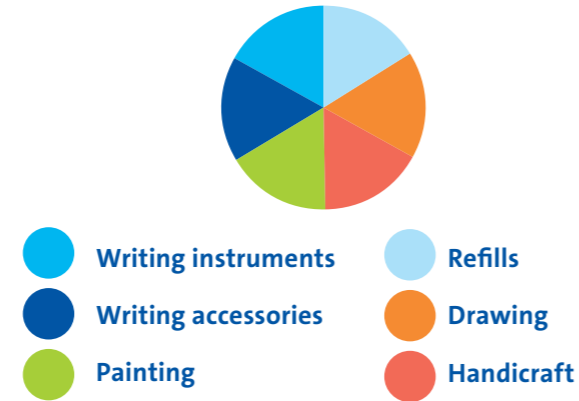

For us, these include the topics of **sustainability, social responsibility and equal opportunities**.

## Our promise

We are constantly optimising production locations, partners and routes. We are a member of amfori, the world's leading business association for open and sustainable trade.

PVG is certified by TÜV Rheinland according to DIN EN ISO 9001 and DIN EN ISO 14001.

Our successful griffix product family is continuously growing and includes products from the following categories:

These products complement each other and partly build on each other, so that the greatest chances of success at the point of sale exist when they are also presented together and thus enable combined purchases.

Take care for our FSC(R)-certified products.

Look forward with us to further **success-promising innovations in 2024!**

**amfori**  Member of amfori. We are constantly improving the social sustainability of our supply chain with amfori BSCI.

## The packaging concept

In the spirit of **sustainability**, we are working on making our packaging more and more resource-friendly. The majority of griffix packaging is made of FSC-certified material.

It is not only in terms of materials that we are taking a step further into the future. Our consumer-friendly, emotionally appealing packaging design cuts an excellent figure on the shelf. With clear, detailed and convincing information, the consumer can find out about the product benefits. With a QR code, we connect the products to the digital world.

Das Zeichen für verantwortungsvolle Waldwirtschaft

Child-friendly address

NEW

## Communication

We know that children accompany parents when buying school products. They have a considerable influence on the purchase decision. In order to do justice to this aspect, we have developed small characters for the griffix product categories **that ensure a childlike appeal.**

They enrich all griffix communication media, e.g. brochures, POS decorations, giveaways and also attract attention and fun online.

## Painting

## Handicraft

## Drawing

## Writing

## Color concept

Our color concept for griffix products is based on what children like: **strong accents** for the younger ones, muted, **modern colour combinations** for the slightly older ones. This is complemented by our popular classic colors.

Bright colors, crisp accents, that cool girls love!

Neonfresh-Blue is our bestseller, inspired by sports and fashion!

With these color combinations there is something for those who prefer to take it easy and do not want to follow every follow every trend.

Fashionable berry tones are the hit for romantic girls!

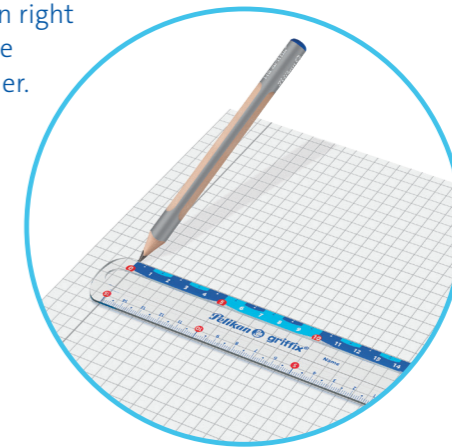

Gaming, sports and fun, that's exactly what the boys are into!

## Ruler 15 cm

Maths and geometry have never been so much fun right from the start. First lines and simple measuring are child's play – thanks to the clever design of this ruler.

This product is only available from Pelikan!

Highlighted "Zero" point with step for the pencil

Simplified scale for first measurement and calculation

Colored highlighted numbers for first counting and calculation

High transparent material

Ink edges on the bottom side to prevent smudging of ink and for perfect gripping from the table

Handle area with name field

Compass guiding hole at the zero point for precise transfer of distances

## Double hole container sharpener

Sharpening thick and thin pencils is now a special pleasure! **High-quality workmanship, quality blades "Made in Germany"** and easy handling highlight this sharpener. The special detail is the sharpening hole closure, which only opens for the sharpening process and otherwise safely stores the shavings inside the container. A clean sweep!

Special closing mechanism opens only on sharpening and keeps the dust inside safely

Sharpening holes for thin and thick wooden pencils

Simple opening and closing of the container

Transparent, large container for filling level

Stable stand on the table

Quality sharpening blades Made in Germany for long-lasting precise sharpening results

## The 4-step learn-to-write system

Back in 2008, Pelikan once again made history with its four-level approach to teaching kids how to write. The world's **first comprehensive learn-to-write system** remains a success to this day and has inspired many imitators.

What makes the griffix writing instruments so unique is their **innovative, child-friendly grip**, which was developed in line with the latest findings in graphomotor skills in cooperation with education experts and the Fraunhofer Institute for Industrial Engineering.

**The perfect tripod grasp: The ergonomic grip zone** – which provides support for the thumb, index finger and middle finger – is based on the best way to hold a pen or pencil, the tripod grasp. The grasp offers children an ideal range of motion and allows both right- and left-handed learners to write without fatigue or hand cramps.

The **four-level griffix learn-to-write system** is the first **integrated concept** that supports the process of learning to write from the very start. What makes it so special is that the grip remains the same as the writing instruments grow more sophisticated. That way, children don't need to start from scratch as they grow and learn.

recommended  
by teachers

The mission:  
the perfect  
tripod grasp

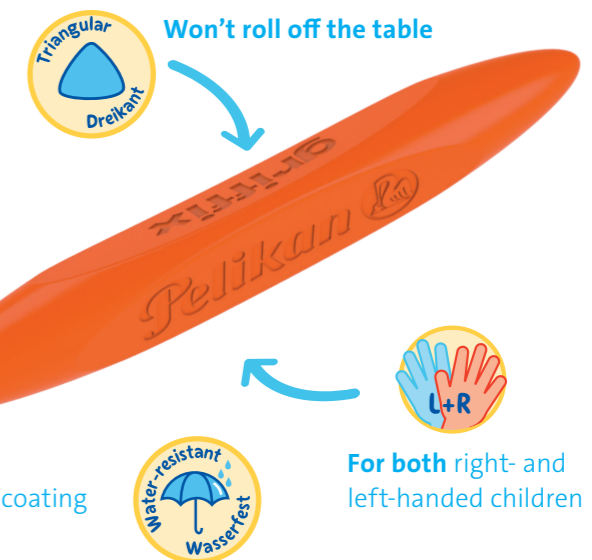

## Learn-to-write system, step 1 - Wax crayons

Drawing is the **most important step towards learning how to write**. It teaches children to practise movements and create cohesive, connected shapes on the path to forming their first letters.

The triangular grip zone of the wax crayon is longer and larger to avoid restricting what is naturally a very free process. At this stage, children are not expected to be right- or left-handed just yet.

Ab Jahren  
**5+**  
from Years

**1 Wax crayon**  
Pre-school: learning to hold the pen and pressure control

**2 Graphite pencil**  
School start: Learning to write precisely

Available as right and lefthander version

**3 Ink pen**  
Preparation for the fountain pen: Learning fluent writing movements

**4 Fountain pen**  
Top level in the learning process: Learning to write precisely

Unique design  
sized for kids

Keeps hands clean  
thanks to its special coating

For both right- and  
left-handed children

## Learn-to-write system, step 2 - learn-to-write pencil

A pencil is often the first real writing utensil kids use at school. Step 2 of the griffix learn-to-write system introduces a grip zone for left- and right-handed children for the first time. The pencil is the perfect start on the path to writing with ink.

**Made in Germany**

Stable HB lead for clean lettering

Ergonomic grip zone

The smiling face indicates the right grasp.

Right- and left-handed versions available.

Easy click mechanism and refill function (see accessories)

Additional colour combinations

As a supplement to the mechanical pencil, there is the classic, wooden learning-to-write graphite pencil in HB and B, which is required in many schools. This is also used for drawing.

## Learn-to-write system, step 3 - rollerball pen

Using a rollerball pen – the junior version of a fountain pen – teaches children to write smoothly and rapidly using ink in no time. As an instrumental part of step 3 of the learn-to-write system, the rollerball pen flexibly balances out a child's natural tendency to apply extreme pressure to the grip. The result is a fun, low-stress approach to writing. What's more, changing a rollerball pen's ink cartridge quite easy.

**Made in Germany**

Protective, pop-on cap

Glides extra softly thanks to its special tip

Ergonomic grip zone

The smiling face indicates the right grasp.

Right- and left-handed versions available.

Refillable with ink cartridge (see accessories)

## Learn-to-write system, step 4 - learn-to-write fountain pen

The fountain pen, the fourth and highest level of the progressive system, helps children refine their skills when it comes to writing with ink. After getting to know all of the instruments in the learn-to-write process, new writers are now ready to take on **the ultimate in writing tools: the griffix® fountain pen.**

The fountain pen glides gently across paper, helping children complete the process of learning to write by acquiring **excellent cursive handwriting skills.** Having now practised the right way to hold a writing instrument, there's no way children can hold the fountain pen incorrectly. Welcome to the big leagues!

While the unique technology and outstanding quality of the fountain pen ensure top-flight precision, **large refill ink cartridges** with colourful prints (see accessories) bring an element of fun to the world of writing.

In a wide range of great colour combinations

## Learn-to-write system refills and accessories

Along with ergonomic writing instruments, **refills, accessories and spare parts** help to make the process of learning to write a success.

### Accessories for step 2: griffix mechanical pencil

Three HB **mechanical pencil leads** in a dispenser box

- Ink writer cartridges
- Extra large fountain pen refills
- Mechanical pencil refill dispenser boxes

Refills

Boxes of 10 pieces

## Wooden Coloured pencils – Colouring fun with bright colours

Painting is not only a **creative form of expression**, but also an important step on the **way to writing**. The sought-after griffix brushes and griffix wax crayons now have big brothers: the griffix coloured pencils. With their long, **symmetrical, triangular handle shape**, similar to the griffix brushes, and the shortened length, they are similar to griffix wooden graphite pencils and do fit **perfectly small kids hands**.

Shortened kid's length 140 mm

Water soluble – for watercolour effects

Made of wood FSC® 100%

8 brilliant colours + white to paint on coloured papers

Long grip zone: promotes the right pen grip and prevents slipping and rolling away

Quality lead 4 mm

Triangular Dreikant

NEW

From 2024 the ergonomic wooden colored pencils are available as a **combi pack** together with a graphite pencil. Both items are important items of each school list.

## School paintbrushes – the winning five for primary school

The griffix brushes are the **perfect addition** to the griffix learn-to-write system, because painting is an important tool for improving the fine motor skills of children's hands. Specially adapted to the **needs of primary school pupils** and perfected for use in lessons, the griffix quality brushes ensure lots of painting fun.

### Helpful handle

- Ergonomic triangular shape and child-friendly length
- Non-slip coating for a secure grip
- Easy to clean and dry thanks to plastic handle
- Perfect for a wide range of drawing and painting techniques

### Brilliant bristles

- Premium-quality synthetic bristles
- Robust and stable to keep their shape
- No annoying hair loss
- Excellent paint pickup and release
- Easy to clean, fast to dry

### Perfect for school

- Triangular form prevents rolling
- Colour-based system for choosing the right brush
- Built-in name tag
- Durability thanks to high-quality materials

Size 12: Bristle brush

Size 6: Bristle brush

Size 6: Hair brush

Size 10: Hair brush

Size 10: Cat tongue brush

Cardboard hanging folding box

### The clever brush strap

**Clever transport and storage solution:** Designed especially for the griffix series, the **flexible brush strap** rounds out the winning five for primary school pupils.

By helping kids get their paintbrushes organised in no time, it is **always the perfect solution** for drying, storing or using brushes.

## School scissors pointed and round

Parents and teachers want quality scissors in school, which are characterised by their **long durability and robust, safe and high-quality quality workmanship**. Also ergonomics and easy handling are a must. The scissors with the round blades are particularly suitable for smaller children who still have to learn hand-eye coordination. The scissors with the pointed blades are for children who already have cutting experience.

The **titanium-nitride coated blades are 3x harder than steel** and make these make these school scissors particularly reliable companions in everyday school life.

With personalisable name tag

## Packaging versions:

- Rivet card
- Loose with label
- Online shipping packaging
- Wedge display for round and pointed scissors: contains 12 pieces each, assorted colours

Hanging try-me card

Special packaging for online channels

Label

Standard counter display for space-saving presentation.

16 All images for illustration purposes only · Subject to change without notice.

The first **ergonomic school compass** that's a real all-rounder.

## School compass

Never before has it been so easy and comfortable to start constructing as it is with the **griffix® school compass from Pelikan**: an all-round smart solution with clever extras for precision and safe transport.

### Design

- Child-friendly shape **without edges and spikes**
- Pleasant, non-slip surface, especially suitable for beginners
- Extraordinary **design** with stable double legs
- Convenient haptic, **anti-slip surface**

### Transport

- Small and compact, just 150mm in length – for easy transport
- Tip protection for transport – metal and graphite lead are well protected during transport in pencil cases

## griffix promotional items

We offer a wide range of materials to help you promote sales of the griffix product line, including class schedules, a brochure for families, decoration materials for your shop window and product presentation, and a tester station for your customers.

Window decoration

A4 table display

Large-scale eye-catchers

New and improved class schedules designed to match the griffix range are available as well.. This popular promotional tool has a lasting impact.

Trying is believing

A tester station offers the perfect way to round out any presentation of the griffix® writing instruments.

Nutzen Sie den Beginn des 2. Schulhalbjahres Ende Januar für den Füllerstart! Viele Lehrkräfte beginnen hier das Schreiben mit dem Füllhalter; die Nachfrage ist am Jahresanfang besonders hoch.

The informative griffix family brochure offers helpful tips for the first day of school, especially for parents of kids just starting out. It also tells them about the advantages of the ergonomic griffix system and lets parents know, how their children can benefit from the griffix line of products.

## High-impact griffix campaign

A large-scale advertising campaign will support griffix sales throughout 2024. The griffix TV advert is scheduled to run in prime time on the Disney Channel throughout the school holidays. Targeted PR campaigns in a variety of media both online and offline are designed to win parents over. Product tests, competitions and giveaways in popular magazines stimulate interest and increase demand in stores. The number of contacts stands at over 300 million!
