PURA®

**Pelikan** 

**PURA**®

## **Understated elegance in trendy colors**

PURA® is a clear and straight designed series of metal writing devices made from double anodized Aluminum.

The balanced combination of matte colors and shiny silver surfaces underlines the noble character of this writing instrument, giving it a subtle, elegant silhouette.

Following the latest trends, the high-quality Pura collection is now being updated. The colors “Anthracite” and “Petrol” replace “Black” and “Blue”. In addition, the assortment is supplemented with the shades “Bordeaux”, “Mocha” and “Deep Green”. The classic “Silver” remains in the assortment.

## Display

The Pura collection is presented in an eye-catching new, high-quality display. This stylish, rotating cube is intended for permanent presentation at the PoS. It elegantly presents all color variations and shows the different writing systems when opened.
