

Edelstein® 
INK COLLECTION

INK OF THE YEAR 2022
APATITE

Edelstein® Ink Collection Ink of the Year 2022 – Apatite

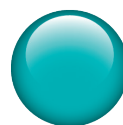

Colors create emotions, light up our fantasy and open up new spaces for our thoughts. To the honor of the fascinating gem stone Apatite a new harmonic color creation was born. The blue-turquoise shade of color leads to a felicitous association of the natural element of water. An ink color that let all thoughts flow. Written as words on the paper.

Let your customers be fascinated by this new color from the Edelstein® Ink of the Year. It completes the range of blue and green-shades of colors in a totally harmonic way. Definitely a Must-Have!

The Edelstein® Ink of the Year 2022 Apatite will be available from March 2022.

Flakon Apatite (50 ml)
